Thread: [Anyone really into streetwear?](#)

southpaw - June 27, 2018, 5:39 pm

Looking to see if anyone else is really into streetwear? If so what are some of your favorite pieces you own or looking to eventually pick up? It could be anything from a tee to high fashion stuff. I've been collecting a lot of bape items recently and have a couple grails from like '05.

It just opened up for streetwear, it was just sneakers until like late last year, around when the bogos dropped.

I might have to buy a couple pairs of Yeezys just to flex on the local douche bags. Other than that I'm not all that into street wear.

SORRIE - June 28, 2018, 10:11 pm

I used to be heavy into streetwear but mostly palace shit, have most of their stuff from a lot of drops

labrooks109 - June 28, 2018, 10:12 pm

Hoping to buy some Dior boots soon, Guerrilla Group pants, Y-3 Hat & Sweater, w/ a gortex jacket for the winter.

Enronitis - June 29, 2018, 5:38 pm

Damn. Some crazy wears up in here.

I'm impressed. Like that astronaut towel.

I am a scholarly shut in. I see no reason to purchase material such as the ones listed previously in this thread for social interaction that is very unlikely to take place. Regardless, I am not throwing shade at anyone else here for partaking in the aforementioned product purchasing rituals. As my username here suggests, "to each his own."

I guess I can understand that.
I still think all of bapes clothing is gaudy as fuck and looked like it was designed for children. Only people that can pull it off are asians.
And supreme just uninspired
