Thread: [Sales are finished.](#)

Riyu - June 29, 2018, 9:07 pm

I have recently come across something that is easily the best method on HF that you will find. Now before people start coming at me saying shit like "then why are you selling it if u make so much" and "probably just another shitty ebook," just keep reading. This isn't a typical eBook where only the seller makes money. Upon purchase, you'll be guaranteed a lifetime group membership spot with other like-minded individuals who can help you step by step throughout the whole entire process and who you can learn from. There are no requirements. The setup will take less than 30 minutes and you will start profiting immediately.

Price: \$200 USD

Payment methods: PayPal, BTC, BCH, LTC, ETH, Perfect Money, Stripe

Frequently Asked Questions-

Q. Do I have to invest anything?

A. Investment is not required

Q. Does this have anything to do with CPA, Website Creation, Ewhoring, Dropshipping, Reselling, Shopify, SEO, Exchanging/Trading or any other low quality known methods?

A. Absolutely not. I would not waste my time charging you guys for some public methods.

Q. I'm not in the US, can I still do this method?

A. Of course, this method can be executed from anywhere in the world. All you need is a computer or a phone with internet. Anyone can do it as well no matter the age.

Q. What happens if I don't earn any money?

A. You will be issued a 100% refund. That's how confident I am that this method works.

Q. Is this even proven to be working?

A. Yes. I've spent countless of hours trying to perfect the method. I would never sell anything that is trash/public. The reviews speak for themselves.[/b]

The method is great, i bought 2 other ebooks and I asked them for a refund right away when I read it but when I bought this I was finally looking at a method i have never seen before
i read it just once and realized where the profit was coming from
I chose not to use an investment as i had no more money left
i will post a picture of my money when I complete the method because i have barely had time to sitdown as i am moving houses

(Jul 4, 2018 04:52 PM)Vonoxide Wrote: [\[CITE\]](#) I bought this method and I am absolutely amazed. I set up the method and just rinse and repeat and now I am making massive withdrawals. My bank account has not had a 4 digit balance in months.

After reading this method I completely understood it but I want to ask Riyu if he's seen any horror stories and how to prevent them. He reassured me not to worry and if I needed anything he was here. I don't buy methods often but lately I have been finding some gems that have caught my eye and glad this one did. So far here is the profit I made, I will try to post some more results later down the road, maybe after one week and a month of doing it. Honestly anyone on the ledge take the jump like I did, whats life if you dont take a risk. I did that and so far I can't thank Riyu enough for this method.

The ebook is very well written and very simple to understand, Riyu is there and always answers my questions within minutes. He is very friendly to talk to and is excellent at helping. As i've been very busy today i have not spent too much time on the method but i've still made 50\$ with barely any investment only a dollar. The method works just as advertised if not even better and i'd recommend it to anyone.

(Jul 8, 2018 04:09 PM)Arceus17 Wrote: [\[CITE\]](#) Vouch for Riyu, I've purchased a lot of eBooks while I've been here but this one was well worth it. I've made around 2.5k of just pure profit. Riyu gave me the method and got me some support members to help me out. I learned the method and I'm trying my best to master it.

So far all seems good, seems promising and hopefully I'll be able to do profit from this! Posting here to remind myself to come back and maybe update whatever I earn.

No, payments are not cashed out 100% in BTC.

Also, would I need to use an identity to do this ? Would I need a registered company if I run alot of transactions ?

Okay my review:

The method is great, i bought 2 other ebooks and I asked them for a refund right away when I read it but when I bought this I was finally looking at a method i have never seen before
i read it just once and realized where the profit was coming from
I chose not to use an investment as i had no more money left
i will post a picture of my money when I complete the method because i have barely had time to sitdown as i am moving houses

First off, I want to say thank you to Riyu for helping me with my nooby questions. After reading this method I completely understood it but I want to ask Riyu if he's seen any horror stories and how to prevent them. He reassured me not to worry and if I needed anything he was here. I don't buy methods often but lately I have been finding some gems that have caught my eye and glad this one did. So far here is the profit I made, I will try to post some more results later down the road, maybe after one week and a month of doing it. Honestly anyone on the ledge take the jump like I did, whats life if you dont take a risk. I did that and so far I can't thank Riyu enough for this method.

Riyu, questions for you:

1. Is there a certain skill level required to make money using this method?
2. Does this have to do with Crypto or Crypto trading at all?
3. How much of an additional investment do I need to make after buying the book to see results?
4. Is this actually the method you use or is there something additional you are doing to make these
- 5 figure months?
5. How long does it take to set up and start profiting?
6. How much risk is involved in your method for losing your money?
7. How much time needs to be invested to get your 5 figure months?

Thanks in advance for your answers, I'm interested to see your response!

1. You don't need any skill sets, it is extremely easy to do.
2. No, I personally don't like waiting a long time for money.
3. It honestly depends on how much you want to earn. You can also just not invest at all as a whole as we have methods that remove the investment portion of this setup.
4. No, this is it. This is all I use.
5. If I were to give an average, it would take about 30 minutes to set up and you receive your profit instantly after setting it up.
6. No.
7. You are really just rinse and repeating the method. Once you get the hang of it it will take roughly 15 minutes to do each time then you can continue to do that to earn a solid amount each month.

Like I said, investing is not something you have to do but if you choose to invest then whatever you invest will result in making your investment back + 50-85% profit.

There is no risking of losing your money.

Purchased the method earlier today and i've got to say it's a very good method. The ebook is very well written and very simple to understand, Riyu is there and always answers my questions within minutes. He is very friendly to talk to and is excellent at helping. As i've been very busy today i have not spent too much time on the method but i've still made 50\$ with barely any investment only a dollar. (Jul 6, 2018 07:38 PM)brutxz Wrote: [\[CITE\]](#) Purchased the method earlier today and i've got to say it's a very good method. The ebook is very well written and very simple to understand, Riyu is there and always answers my questions within minutes. He is very friendly to talk to and is excellent at helping. As i've been very busy today i have not spent too much time on the method but i've still made 50\$ with barely any investment only a dollar. The method works just as advertised if not even better and i'd recommend it to anyone. Thank you for the review, brutxz.

quality. Thank you Hawkeye. I appreciate the vouch.

(Jul 6, 2018 07:38 PM)brutxz Wrote: [\[CITE\]](#) Purchased the method earlier today and i've got to say it's a very good method. The ebook is very well written and very simple to understand, Riyu is there and always answers my questions within minutes. He is very friendly to talk to and is excellent at helping. As i've been very busy today i have not spent too much time on the method but i've still made 50\$ with barely any investment only a dollar. The method works just as advertised if not even better and i'd recommend it to anyone.

(Jul 8, 2018 04:09 PM)Arceus17 Wrote: [\[CITE\]](#) Vouch for Riyu, I've purchased a lot of eBooks while I've been here but this one was well worth it. I've made around 2.5k of just pure profit. There's also a lot of great people in the group chat that have helped me out. Riyu's support was great too. He would sit for hours with me trying to help me out. Any other seller would take hours or even days to respond to me.

A full solid review:

Method: 4.5/5

I give the actual method a massive 4.5/5. There are many reasons for this high rating. We will start it off with the fact that I have never seen this method before. I have read hundreds of methods in my lifetime. Give me any e-book on the market and I will promise you that I know every single method but the fact that I am reading the method for the first time is enough to amaze me. The concept of this method is ingenious and quite simple. To top it off, he gives you a folder with multiple alternatives to cash out from just incase you don't like Paypal. There is also a support chat server, and unlike other support chat servers the customers actually discuss in this chat. If someone gives a very helpful tip it is pinned at the top for everyone else to see. It is like a community.

Support: 5/5

Like I managed before, the chat server is absolutely amazing. I can't think of one thing to criticize them about it. If you ever have a question and don't want to ask the chat then you PM Riyu and he responds in literally a minute at max.

Earnings: 5/5

I have read the method and you can easily tell how these customers are making so much money. It is simple but the payout is massive. I can tell for a fact just by looking at these pictures that I can easily achieve and even surpass these earnings.

I will be posting my first earnings when I do the method in a few hours.

1. Can I cash out only in BTC if paypal is not an option for me? If so, will that limit the amount of money I can make?
2. Can this method be saturated?
3. If you can, can you give me some more details about the method like what it is about etc...?

Why do i have a feeling this has something to do with buying and earning cashbacks but then cancelling the purchase/getting your money back. Rinse and repeat. Some screenshots posted by users further confirm your method is this or similar to it, essentially based on cashback site(s). If it's not then i am definitely interested in purchasing, i will hold you to your guarantee of a refund if i don't make my investment in your method back. Also regarding paypal, i'm assuming the chance of getting limited would increase tenfold if you do this, and if it's not really blackhat then i guess you can fully verify and use your personal paypal account and even turn it into a business account if you're a regular ebay seller as this may help you stay under the radar. Then again, anything can trigger paypal so it's always a risk.

I have no idea where you are making these absurd assumptions from but everything you said is not true. There is no charge backing or cancelling any purchases, it has nothing to do with cash backs and no it is not anywhere near similar to this. Clearly guessing is not one of your strong suits,. If you don't make your money back then yes you are eligible for a refund. The chance of limitation will not increase by tenfold if you use this method.

Contact me on Skype: Harsh.af if you have more questions

I bit the bullet and decided to purchase this method. It's actually something that I haven't seen before which is surprising to say the least. Usually all these eBook sellers sell the same method but rewritten but this one is actually different. I've purchased another eBook from Riyu so I knew his support would be great (which it was) but a bonus was the group chat. There's a ton of members in there who make like \$2,000 a day from this method which is insane. At the moment, I'm trying to scale it so I can be like them one day tbh.

Overall, the method is good and I recommend it to anyone that is able to afford the \$200 price tag. Come join the dark side, haha.

Does it require a VPN?

If I decide to invest in which currency should I invest and how much?

Could I received all my payments only in BTC or do I need to receive payments in my PP a side to increase earnings?

These are my questions for now.

I'm pulling \$50/day in under an hour

I'm the laziest person on this board so 50/min

I would like to know how risky is the method since I have read a review that let me a bad taste in my mouth. If I have nothing to worry about then I'll be willing to purchase this next time because I will try something different first. But you still can consider me as a potential customer.
