This book stayed away from the usual "Be confident" or "Be an alpha" and gave some tips and advice that they could actually use to help them pick up a girl.

(May 29, 2016 11:37 AM)Editie- Wrote: [\[CITE\]](#) Received vouch copy of this eBook.

Here is my review.

This eBook isn't your typical eBook. This eBook is very easy and simple to follow. I've never seen an eBook on this before so I cant compare it. The eBook also has some little images to help with the text its associated with. From my view there are no Grammar mistakes. The method is super easy to follow and execute. I assume if you need any more help with this method OP will help. Overall I rate this eBook an 9/10. Even if you don't see results within 1 week or the time frame you wanted, you can use the method and techniques again and improve on then and try and get that girl you want. Also the price is a steal! (meaning good price)

Method: 9.5/10

Grammar: 10/10

Easy to use: 10/10

Support(If needed): 10/10

Good luck with sales Flash ?.

As a male who's gone through with the advice listed in this in the past I can vouch that it will work. A little self-confidence is needed still but yeah it's listing some pretty decent points.

Thanks for that OP! Appreciate it.

(would +rep you but i cant, rip ;()

I'll happily take a couch copy for review if available!

Why does your graphic say 10\$+ and your posts say 1.50?
