Thread: [Can an Ub3r upgrade L33t to r00t?](#)

LinK - July 1, 2018, 1:04 pm

When the new usergroup is rolled out, if a L33t member has met the requirement can an ub3r member upgrade them? Even though they are not in the usergroup? I upgraded quite a few L33ts and Ub3rs in my day and I was just curious.

Thanks.

webdev77 - July 1, 2018, 1:23 pm

I would think the answer is yes but we shall have to wait and see.

Potluck - July 1, 2018, 2:22 pm

I'm pretty sure you can just enter their UID and gift it to them like the way you can do now.

Charger - July 1, 2018, 2:23 pm

It does no good to speculate when the group isn't even public yet.

Pikachu - July 1, 2018, 2:27 pm

That's a good question, nobody but the admins know for sure but we will find out soon enough

?Üta? - July 1, 2018, 2:29 pm

Im really curious as to if the rep count on REKT is still there. Im nearing my 1K posts but now that rep is so easily handed out, I wonder if itll trigger right away or if itll still need that 1K mark

Cannot join Rekt any more. Omni disabled all that.

This thread isn't about REKT at all

Correct me if I'm wrong, but I think Omni said that Ub3r's will have no way of obtaining r00t.

You might want to read the thread question again, bud.

OT: I would assume anybody can gift the upgrade to anyone who is eligible to have it.

I think you misread OP's question. They mean purchasing it for someone else like UB3Rs could purchase UB3R for eligible l33t members. They meant Could UB3R purchase R00T for eligible L33T members.

I think he said he wasn't sure if r00t will upgrade for ub3r or a completely new group where you can choose if you wanna be ub3r or r00t but not both as you mentioned. I guess we will soon find out as he lays the final decision. :)

Then make a separate thread

No thanks. ?

Vyxn - July 1, 2018, 5:02 pm

Depends on how Omni will implement stuff. We'll just have to wait for it.

Good question. I suppose that I will allow Ub3r to do r00t gift upgrades. Anyone being upgraded even as gifted to r00t will need to meet requirements. Unlike before when manual Ub3r approval was required members will be able to see in profiles if a member has met the minimum requirements such as posts, account age, and reputation.

LinK - July 1, 2018, 8:20 pm

Right on. Much appreciated Omni
