Should have searched his UID. Known multi-user and scammer.

Sorry for your loss OP.

Now he is stealing the previous usernames of known members, interesting tactic.

Always search the uid before dealing with anyone.

I am just going to stop using this shithole for a site . If you cannot handle a marketplace then remove it completely.

If anyone has any info on that user pm .

If you have made a deal and he scammed you should post all proofs first.

All you had to do was search his UID. If you aren't willing to put in that effort, the marketplace probably isn't for you
