There are so many "private" methods lately that looks the same.. What has of special this method?

(Jul 3, 2018 12:04 PM)IC3zx Wrote: [\[CITE\]](#) There are so many "private" methods lately that looks the same.. What has of special this method?

I'm actually quite aware of this myself and personally feel that many of these other "sellers" are being untruthful and dishonest with their clients and potential clients about their products. I personally really don't have anything to hide as you will never see any shady vouches or non-sense of that sort on this thread. Instead my private method focuses on the method and clients itself, our group will work together in effort to perhaps make the method even more profitable etc.

I've gone ahead and responded to everyone who's contacted me, thanks. As for vouch/review copies I will NOT be handing any out as of this moment simply due to the high value of this method. In order to help bring some real customers and reviews in I have gone ahead and launched an exclusive 50% off sale discount for our first few members, it's time to get or members profiting!

Is this a Resell Method? Very Interisting

Tesla - July 3, 2018, 1:51 pm

Valar is solid money maker and I'm sure this method will bring great income to anyone who is lucky enough to purchase it. Big vouch from me.

Thanks for your interest in the method. This has absolutely nothing to do with reselling as there is no investment required. I've gone ahead and contacted you with more info regarding the method, thanks.

Pochino - July 3, 2018, 8:38 pm

I'm maybe getting this after hearing enough vouches. Idk if it's worth 120 bucks

labrooks109 - July 3, 2018, 9:22 pm

Been only using this for 4-5 hours and I've already started profiting, holy moly. I've purchased a lot of private methods including Chiefs but they unfortunately usually never deliver and the seller will bs you until you leave them alone. Definitely not the case here, Valar has been helped me setup and get profiting in a single day all through the great mentoring he offers for his epic method. So far at \$70 already, I've never really dropped a review but I definitely had to here. Will continue to keep you all updated.

About the 100% refund. In which case you offer it?

As i already bought several private methods here and didnt make a dime from them, despite of spending some hundreds on purchasing..

So now im very skeptical about methods here.

Appreciate the kind words, the method will be working flawlessly for years to come to due to the fact that it can't be saturated. As long as you have an internet connection you are good to go. The only reason I am selling limited copies at a high price is because I value the method a lot and would prefer to be closely knit with my clients/team.

I've been using the method for a few days now and I think it's time to finally post my full review and vouch.The method is super easy to setup and valar and his support team help you through the whole process as well so you never feel lost. My earnings from the first day were a bit wonky but I seen my profits shoot up immediately after that. Been through all the crap here on hf and I would have to put this method as my top go to for quick earnings, a damn toddler could bring bank in with this. So far I've managed to push just over \$600 USD in pure net profit, I went ahead and cashed some out to flash on the forum. For the steep price you're paying you would expect quality and there's plenty of that here. I've been in a tough situation in my life recently with many events going on and for this to happen is something I'm very thankful for. So thanks valar, you deserve this review - if we ever happen to meet dinner is on me ?

\$600 Earnings Proof:

Damn am impressed!!! Is it really that easy? I always wonder if something is too good to be true because probably it is but from people's reviews I think am gonna have jump on this soon as I get the funds to purchase I had to learn the hard way and expensive way at that to not have the shiny object syndrome that early until I see actual purchase reviews or until sometime has passed because eventually actual purchaser will complain after awhile that it dosent work, hope I don't make \$120 mistake but this looks legit asf..... Mr valar please hold a discounted copy for me until I get payed from my irl job on Friday so I can definitely get profiting on this opportunity! I would post my review as a newbie With no experience in making money online.

The method does not involve localbitcoins/paxful and is not exchanging/trading. Thanks!

(Jul 9, 2018 09:20 PM)Shademan Wrote: [\[CITE\]](#) I've been using the method for a few days now and I think it's time to finally post my full review and vouch. The method is super easy to setup and valar and his support team help you through the whole process as well so you never feel lost. My earnings from the first day were a bit wonky but I seen my profits shoot up immediately after that. Been through all the crap here on hf and I would have to put this method as my top go to for quick earnings, a damn toddler could bring bank in with this. So far I've managed to push just over \$600 USD in pure net profit, I went ahead and cashed some out to flash on the forum. For the steep price you're paying you would expect quality and there's plenty of that here. I've been in a tough situation

in my life recently with many events going on and for this to happen is something I'm very thankful for. So thanks valar, you deserve this review - if we ever happen to meet dinner is on me ?

Have been using this method for a couple of days, just recently starting getting the handle of things thanks to OP!

Almost hitting the \$200 mark

In order to make money you have to have dedication, and have the patience to learn about the secrets/ins-outs which OP is extremely helpful in situations you're stuck (which you rarely are). I recommend and vouch for this method. Already made my money back and more.

Looks really interesting could you provide me more information on the method before I proceed with my purchase? Everyone is saying great things about this method.

rpmagana - July 13, 2018, 10:39 pm

It's been about 2 days since I actually started doing the method and i am honestly surprised as to how much success i've been having. There's another method included in here that im more interested but the first one is really easy to pull off. All i know is I've made way over my initial investment of \$120 with a lot more to come.

If you're looking into buying this, you will make money! Might take some time but you will at some point recoup your investment!

Currently can't post pictures cause of my post count but as i can i will post how much i've gotten from this method!

Hey mate, definitely understand where you're coming from as I've been in that position myself before. If you check my post history you would know I'm a buyer myself and am very aware of the non-sense that spreads around this forum. What I can promise you is a pure and honest method that is simple to setup and very easy to executes. This method is a personal & private method of mine which is only shared exclusively with our group. My only reason for doing this is to do whats exactly happening right now: several like mind entrepreneurs all helping and profiting together. With the help and insight of several members we've been able to continuously add several additions to the method thus making it more efficient and profitable. Most of my members are earning right from day 1 but you should 100% expect profits no later than day 2. Hope that helps clear a few things out for you and some others, cheers.

Hey, I'm quite aware of the other "private" methods on the market. Unfortunately most of the sellers here provide low quality products that are public and unprofitable. I can assure you this won't be the case here. This method is unique and easy to profit with, no strings attached. I will also be looking over you to ensure your setup is optimized for maximum profit. Looking forward to working with you and helping you setup a reliable online income stream!

Purchased this method, at first I was nervous whenever I buy ebooks they never work out so before I read the book I regretted my purchase. Then when I read the book I was reassured but still nervous to make my money back. The first day I made \$30, then the next \$30, then the following day I would make \$90 and now i have made \$30 today. Everything I earn from now on is profit , great investment don't be nervous and the support (even though I probably drove him crazy) was excellent.

(Jul 9, 2018 09:20 PM)Shademan Wrote: [\[CITE\]](#) I've been using the method for a few days now and I think it's time to finally post my full review and vouch. The method is super easy to setup and valar and his support team help you through the whole process as well so you never feel lost. My earnings from the first day were a bit wonky but I seen my profits shoot up immediately after that. Been through all the crap here on hf and I would have to put this method as my top go to for quick earnings, a damn toddler could bring bank in with this. So far I've managed to push just over \$600 USD in pure net profit, I went ahead and cashed some out to flash on the forum. For the steep price you're paying you would expect quality and there's plenty of that here. I've been in a tough situation in my life recently with many events going on and for this to happen is something I'm very thankful for. So thanks valar, you deserve this review - if we ever happen to meet dinner is on me ?

\$600 Earnings Proof:

(Jul 10, 2018 10:26 PM)MOOdy Wrote: [\[CITE\]](#) Have been using this method for a couple of days, just recently starting getting the handle of things thanks to OP!

Almost hitting the \$200 mark

In order to make money you have to have dedication, and have the patience to learn about the secrets/ins-outs which OP is extremely helpful in situations you're stuck (which you rarely are). I recommend and vouch for this method. Already made my money back and more.

Big vouch for this user, I went ahead and purchased his method a few days back after going through some questions with valar on skype and everything I was told was exactly as promised. Setup was snappy and I was up and running almost immediately after the 30-40 min setup. My first profits surprisingly showed up near the end of the day but it's literally been soaring ever since. Just passed \$200 so I thought I'd drop a post confirming that I've earned my money back and then some (purchased when it was discounted :P). Will continue to keep you all updated

Thanks for the response.

The method has nothing to do with public methods such as ewhoring, paxful or any type of website creation. The actual method requires no investment, chatting/talking, offline work, skills or requirements to accomplish. Many of the other low quality sellers tend to sell methods that actually require external marketing/vision/creative/entrepreneurial skills etc which is just not reasonable for the average person. My method offers a different simple & unique solution that is guaranteed to work great for you or anyone else with an internet connection. That's the beauty of it!

Hello, interested and looking to purchase just a few question:

1) It seems like quite an amount of people have purchased this method so far, I am wondering if the profits that we make will decrease as more people begin to use this service or does that not happen no matter how many people use this method more and more?

2) You said there is no investments required, but does the method allow investments, just wondering so and see if I can invest some money into the method for greater profit.

3) Also, does putting more time, more than 5-10 minutes. like 30-60 minutes into the method per day increase the profit?

4) From the vouches, seems like payout are ranging from \$30 - 250 per day, so far only seen vouches from people who vouched 1-4 days after their purchase, from your thread, you said \$500 a day, so does the payout increase day by day or does it depend on how much time and dedication you put into the method?

5) Does the time of day you're working on the method affect the payout? Like If I decide to do it at 3 am instead of a busy time like during the afternoon/evening, will it affect anything?

I am fairly new as I haven't used any other methods before so I have a lot of questions, thanks for taking your time to answer it.

Hey there, thanks for the questions and your interest in the method.

1. We seem to have quite a few members on board as you've noticed. Ironically enough with the more people that have joined our profits have only scaled. This is because the method cannot be saturated. Instead we work together to optimize and tweak the method thus making it more profitable and efficient. This method won't be saturated ever.

2. There are no investments of any kind needed to profit with this method. Absolutely everything you need to get earning is included within your package. Investments are optional and can speed up and increase your pay but not by a significant amount. You are still guaranteed to earn without investing a penny. Also as mentioned only 5-10 mins of simple work per day is needed, increasing the amount you work won't really change your pay as you will be earning regardless.

3. Most of our customers are earning right from day 1. The thing is you should only expect to earn \$50-150 per day for your first few days before profits begin to scale to bigger daily margins.

4. Time of day has no effect on the profitability of the method. Also you will be earning regardless of the time with this method which is what makes it so effective.

Hope this gave you and a few others a deeper insight on the method.

I decided to just buy the method before someone else takes the last \$140 copy without my questions answered, but I'll take the risk so it's refund guaranteed if the method doesn't work correctly for me, I'll be going to sleep and hoping to get the eBook and get it set up and everything once I wake up. Added you on skype, live:zwindslash.

Went ahead and responded to your question, glad to have you on the team. Looking forward to seeing your earnings! (Pinged you via skype)

Hey thanks for your inquiry. The method only takes around 1-2 hours to setup at most and then you can expect to start earning immediately right from day 1. Most of our customers earn around \$50-150 per day for the first few days and then profits eventually scale to enormous amounts over time.

I took a few days to get everything set up and that was 100% my decision, this can be set up within a couple hours though.

I've made my first bit of profit today, and although it wasn't much, the potential to scale this is unlimited. There are multiple methods included too, you aren't limited to one thing. He's going to be mentoring me tomorrow to give me some updates and assistance to grow my profits! Can't wait.

The method can 100% be maintained and handled via mobile after setup. In the event that you're somehow unable to earn, I will issue you a full refund without question. There is no reselling of giftcards, shopify, dropshipping, selling merch or any of that public non-sense.

Making more money than ever with the new update. Let me just say this valar, on behalf of myself and the team and I want to thank you with everything I have for the opportunity you have provided us. Without you I'd still be wondering how to pay my bills, you told me to make the investment and I took you word for it and never looked back.

My life is in a much better position and I doing very well financially. I finally managed to get enough extra profit to get myself a new phone and thought I'd treat myself with an iphone 8+.

You've taught me a whole lot about making money online and your method is by far the most effective on the forum. My 100% full vouch to Valar and his method.

Hi,

Have some questions:

- 1) It does require some investment to make more?
- 2) Is it anything to do with coloring books?
- 3) How much can we make per day realistically?

I'm asking these questions as price is high and want to make sure, its worth it.

Hey there thanks for you interest in the method. Below I've answered your questions to help you get a better understanding on what the method is all about:

1. There are absolutely no investments required to earn or earn more with this method. Absolutely everything you need is 100% included in your package.
2. This method has nothing to do with coloring books or anything else that's low quality or public.
3. You should expect to earn around \$50-100/day for your first few days immediately after setup. After that you can expect earnings to scale up to over \$300+/day.

Definitely understand you concern as this is a steep investment to be making and it's best to know what you're going into. I can definitely assure you the method is worth every penny and in honest opinion plenty more. If you have any more questions you can add my skype "live:sale.hf". Hope to have you on the team!

its crazy to think that ive purchased this method only a few weeks back and the amount of success ive made already. I've invested a lot of my money in stupid methods that don't work so i didnt know what to think of this but when I spoke with valar he seemed to have something different about him than the other sellers. After investing my last money and putting all my trust in him I was very relived to find out he didn't disappoint. He worked with me through every step of the way to ensure my profits were going right from the first day. I've never in my life seen a seller this dedicated towards his members. I've seriously been earning steady income of atleast \$150+/day for the past 2 weeks. Money has not been an issue for me recently and that feelings been something i've never been able to experience coming from a poor family. Big vouch to my brother you really completely flipped my life around I keep thinking I'm in a dream <3

My earnings from the first day were a bit wonky but I seen my profits shoot up immediately after that. Been through all the crap here on hf and I would have to put this method as my top go to for quick earnings, a damn toddler could bring bank in with this. So far I've managed to push just over \$600 USD in pure net profit, I went ahead and cashed some out to flash on the forum. For the steep price you're paying you would expect quality and there's plenty of that here. wecanbothwin - September 7, 2018, 5:00 am

guys. I purchased this method and here is my honest review.

First,The method is solid. Support was a little shaky at first due to the fact that OP was just starting school and wasn't around very much. He explained that and has been very reliable since. I had a lot of questions at first, just trying to figure out how this works. It's fairly straightforward but a few nuances that you just need to get a hold of.

One thing I'll say about the method (without giving anything away) You really need to get your 'ducks in a row' for this one to make sure you are good to go... but the method is very easy, very quick set up, then just wait - and it's true, about 10-15 min a day (maybe/probably less). You can spend more and probably make more.. but most of your time will be waiting.

It's easy and pretty much 100% guarantee you'll make money. The first few days were a bit bumpy for me trying to get familiar with everything, but total time spent was around 30 min and I've made

about \$60 (pure profit!).

Def recommend. Thanks OP!

Thanks for your interest. The method has absolutely nothing to do with reselling. That would require plenty of marketing/entrepreneurial skills. With this method you can simply follow the straightforward steps and get profiting immediately after setup no skills required.

Valar, you seem pretty active here on the forum.

Can you spend some time to add me to the discord group? I bought more than 1 week and still have yet to be added.

Also, appreciate if you tell me where I can reach you easily, because you're almost always offline on Skype for me, or your response time's too slow.

(Oct 15, 2018 01:39 PM)BigMoke Wrote: [\[CITE\]](#) Day 12 after purchasing.

I've made about \$200 on top of my funds on hold from just one of the numerous methods provided by Valar.

There is no doubt in my mind this method is 100% worth every penny, even though he offers a full refund, you would actually have to do absolutely nothing to not make money off these guides.

There are numerous and unique methods to making money provided and I've spent no more than

10 minutes each day.

Valar has provided me with information to contact him through multiple online chat programs and has been in communication with me since day one.

Since purchase I have been provided with two additional updates as well.

I didn't really hesitate in buying this product after going through all 50+ pages of comments.

Man have I been impressed with how little work can net so much.

Thanks again Valar I couldn't have asked for a better way to help get myself on my feet again.

Thanks so much for the detailed review and I'm glad to see you earning as expected. Keep those profits soaring ?

banablad - October 15, 2018, 10:12 pm

Currently speaking to Valar on skype :)

SH?D? - October 16, 2018, 11:43 pm

Valar is currently in exam season and has been under a very heavy work load. I will be assisting him with support in the mean time so please don't hesitate to contact me for help!

Tor - October 17, 2018, 11:57 am

I am currently online to answer and questions/inquiries. Feel free to contact me via PM or Skype for more info!

bkjohnson - October 18, 2018, 12:36 pm

I am really impressed with how long this method has been working for me. I have been earning my profits dailyt without any issues for the past month (maybe 1-2 minor issues that were instantly resolved by Valar). Overall big vouch!

Tor - October 18, 2018, 3:56 pm

Please feel free to ignore the childish member below As mentioned 30+ times, I am currently in my midterms and have NOT had the opportunity to offer any assistance is I've clearly mentioned SEVERAL TIMES BOTH ON THE THREAD AND PERSONALLY TO YOU.

Proof: <http://prntscr.com/l81mj6> (scroll through thread to see more proof)

Instead of patiently waiting like YOU said.

Now instead of simply waiting even after profiting \$900, you decide once again to stir up a ruckus calling me a scumbag and being beyond disrespectful instead of simply waiting for me to finish my exams. (My last one is literally today at 4:00pm.) You getting banned is the fault of yourself. I clearly mentioned that I would be providing an additional step that would prevent any sort of bans but ofc you clearly have no patience so now you're banned. (This step is not mentioned in the method to prevent any leaking, just like how you tried to leak my method yesterday and failed miserably.)

Overall, I hold ZERO responsibility for your loss and distress. Your support and refund have been fully voided, goodluck with your future endeavors and please refrain from being such a child next time you do business. GL.

BigMoke - October 18, 2018, 8:12 pm

Do not purchase this method. Valar will not help you or mentor you. His methods are not legal and have since resulted in the permanent suspension of my ebay account. This was the very first and main method described in the files he sends you. I do not recommend using this method as it has cost me my ebay account for life.

This was the last response I received from him

"Not a problem, as soon as I have midterms out of way (end of this week) I promise you'll receive the support you've very well deserved."

Amazing job starting this again. Your refund and support have been fully cut off if you have any questions you may pm me on hf.

Either way I purchased this method on the 2nd of this month. It has been over two weeks for him to put aside one hour to help someone who paid \$140 for his methods. He was trying to postpone it for a 3rd week when his methods offer "1 Hour Simple Setup & Straightforward Setup"

He has told me multiple times he would provide me with a disclaimer to prevent getting banned from Ebay and has neglected doing so.

Wait a minute you provided income proof that this method is working for you WTH am confused, I was just about to purchase this method finally but idk now. I can't afford getting my eBay account closed.

Yeah most of my money is still on hold. He told me time and time again he would provide me with a "disclaimer" to avoid it. Kept telling me to wait another week. Up until my account is now banned.

He had me edit that post on the condition he promised to help me still a week from now. Providing someone a disclaimer shouldn't take you 3 weeks if you already had it and I was already a paying customer. He has done absolutely nothing but ignore me through every chat format and has claimed he is too busy in midterms yet he has had time to respond to other members about buying it and has plenty of time to keep selling his methods and continue his streak of discounted copies as that was supposed to end on my purchase. The only time he has ever reached out to me after contacting him through Pm, skype, and discord is when I post on this thread which he responds back to me in the same day asking why I am giving his thread a bad rep. Well don't have someone pay you \$140 and then provide 0 support for 2 weeks straight after it is supposed to be a "1 Hour Simple Setup & Straightforward Setup"

Tor - October 20, 2018, 9:54 am

Thank you to everyone on the team who has been patient through my exam season. I am now fully finished writing and will be putting my 100% focus back into our team. Please refer to our discord group for new updates, we are in the midst of composing some new work to increase profitability.

If any members left me a question that wasn't responded to this week, please resend your message and I will get back to you ASAP! Also I am fully available for mentoring sessions so don't hesitate to contact me to schedule an appointment. I'd be looking over your setup, resolving any issues and ensuring your setup is outputting maximum profitability.

Thanks for your interest. I've gone ahead and sent you a pm regarding more information on the method. Hope that provides you with the information you need to make your decision, hope to have you on the team! ?

SIM-433668 - October 22, 2018, 5:18 pm

Alright, so I'm not editing this post no matter how many times he asks me to, since this is what is always comes down to.

I guarantee, with all of me, if you have any issues, they won't get resolved. I'm not going to make the mistake of mentioning anything about the methods, but the private bonus ones aren't private. He said he'd help me set up a method, never happened. He disregards several messages and just reassures me that he's here to help, where's the help?

Every time I come to him with an issue, I either get reassured with a half assed answer, old information, or simply no reply. No reply seems to be the usual one til I make a post on the thread. I'm 99% certain he hasn't even tried one of the methods because he hasn't been able to give me a straight answer on what to do, I actually haven't gotten a reply at all.

I've messaged on both discord, and Skype, seeing him go online/offline on both. There's no reason he can be posting on this thread and not helping a customer who regrettably paid \$140.

I'm just saying, you can spend a quarter of the money that you'd spend here and get 4 times the support.

Tor - October 23, 2018, 11:04 am
