Thread: [Votes for remix contest!](#)

infectedballzack - July 3, 2018, 11:56 am

Hello everyone,

Im in a remix contest hosted by Spinnin records. As of now i am in first place, thing is i have to keep it like that for the next 17 days until the contest ends. If any of you would like to vote for me send me a PM for i cannot post links yet, or you can go on the spinnen records website and go to the dannic remix contest and vote for me manually im in first place so ill be right their. the name is Z/?\K so you wont miss it. It will mean the world. Take a listen and vote for me, Enjoy and thank you all!

Voted for you man, listened to your remix nice job man but in some parts of the track it feels a little too compressed. Maybe it's just me though. Good luck and hopefully you stay first!

Thank you so much! very much appreciated ?

and yea your correct, the drop i used in this remix was a drop i used in one of my old projects, just changed the key and streched it out, in the old project it was mixed and mastered just fine but it was too too loud, now ive always gone by that golden rule, if everything is EQed and mixed correctly it doesnt matter how loud it can go, and im talking about my master chain. so when i exported it and dragged it into the remix it was already really loud so mixing was a pain! in the end i really like this remix but it is not my finest work. Thank you for the feedback by the way! always appreciate it. ? ?

Haha damn. Was thinking about entering this myself when I just saw it because of your post but wasn't sure if I'd have time to complete it by then with my current workload on. Keep up the nice work though man, if you've got Soundcloud drop me a follow and I'll follow you back!

dropthebeat23 - July 6, 2018, 2:37 pm

Voted. Best of luck to you.

Follow me back on Soundtrack, I make music too!
