I made \$280 in bitcoins in a matter of minutes by gambling on fortunejack on the slot machines I only deposited \$55 into their and cashed out \$280 not bad for 20 minutes of slot machines.

If you deposited \$55 and cashed out \$280 that means you made \$225 not \$280

Yeah I was just saying the total amount I cashed out, but u still can't deny \$225 in 20 minutes isn't bad.
