I was watching the American Pie 1-4 (official ones, not the ones that just have the name), and I like the 90's songs playing on it, and I started listening to Blink-182, Sum 41, Lit and etc. What are your favorite 90's and early 2000's bands.

I'd honestly say Blink 182 cause they just killed the late 90's, early 2000's.
"Enema of the State" up to "Self Titled" were/are really great releases.
