bbb1212: The whole pack with 432 e-books (more then 1gb)

so?? you downloaded all the ebooks from the web and selling them?? got resale rights?

bbb1212 - July 16, 2018, 5:48 am

the content of the larger package is publicly available and contains free methods. the first package contains largely modified methods.

but you are right! so, this offer is no more available.

and i hope the resell rights will be discussed at the other sellers as well in this forum (if not you then others), because most of the members known, that 5-6 "premium sellers" offers the same method for hundreds of dollars, often without changing a single word.

sry for this!

i cant edit the first post. THE OFFER NO MORE AVAILABLE.
