First of all, I will need your login details to add vbucks to your account.

Next important thing is that this is PC & XBOX only.

No previously linked to PS4 or actively linked to it.

I am not responsible for your bans, however I do argentina method and that method is supposed to be safe.

Order of your vbucks should be done until 24 hours or sooner.

I added proof + I am on this site for an long time. Before the rep reset I had many people vouching for my service. I am not responsible they removed kind of the reputation. System. Negs have now nothing to do with marketplace but whatever ?

I offered OP to do a non profit vouch. That means I would pay the price he spends on purchasing the argentinian vbucks and in exchange I leave a vouch but he did not accept that offer.

well that some proof lol. Skemmers would of made a ETH Wallet and took ya money. I know you won't do vouches but if you change your mind. happy to do so. good luck with your service. people who ask just want free v bucks lol then they will leave a vouch that just says vouch this guy legit. so how is that proof? don't worry about them.
