Thread: [\[Private Domains Method\] Get Unlimited Domains and Hosting | 100% Guaranteed](#)

Trappy - July 9, 2018, 12:31 pm

Short, sweet, and to the point. I've perfected a method to register and host unlimited domains for free. That's right, no investment needed, you will bypass all of those tedious, expensive steps usually pertaining to making a website.

Basic Package (No support, no updates): \$19.99

Premium Package (Lifetime support, updates): \$24.99

Autobuy link: [Click here](#)

This method allows you to register .com, .net, and over one hundred other top-level domains. If you have any questions at all my contact methods are in my signature, or you can simply send me a private message.

(May 22, 2018 03:30 PM)LordZEDith Wrote: [\[CITE\]](#) Vouch really works got domain and hosting !!!!!

(May 17, 2018 08:37 AM)dove Wrote: [\[CITE\]](#) Just did what you could call a vouch copy with him on teamviewer. It's actually really simple and I'd say worth buying. It takes just about 5 minutes maybe even less to get the domain you want, and set it up. 10/10 would vouch again though for real.

<http://daddycx.eu> is the domain I got just for the vouch

(May 17, 2018 03:50 PM)Lx Wrote: [\[CITE\]](#) Vouch for this user.

Method works perfectly, few bumps but not enough to hinder anything.

<https://helpless.eu/>

Showed every part of the method clearly through TeamViewer but works very well nonetheless. Definitely worth the \$10 if you want to get yourself a nice domain and website.

(Jun 15, 2018 12:28 PM)Wm Wrote: [\[CITE\]](#) Trappy gave me a few .com domains before, I'd assume they were obtained with this method. Vouch!

Vouch for this, managed to register 3 different domains with free hosting in one day. Great method, I highly recommend this.

Riyu - July 9, 2018, 12:51 pm

This seem interesting.

Sending you a pm.

SpamHer0 - July 9, 2018, 1:11 pm

Is there any risk involved like domain getting locked up etc? If not, im interested to buy. PMing you now

Chomped - July 9, 2018, 2:35 pm

Bought the first copy I guess, will update with the results

Ryon - July 9, 2018, 2:59 pm

How would you go about renewal for the domain? Would you have to wait for the domain to fully expire and then redo the method?

NLSProductions - July 9, 2018, 3:05 pm

Due to the quality of the replies in this thread. I shall purchase this on friday to see the method used. Good job see you friday.

Got the guide 54mins ago, followed the steps and managed to register and get hosting for two .com domains. Big vouch for this and its especially worth it for the cheap price, buy from this man.

Does this have to do with VCC or IBAN?

Tested this method 10 times after I bought, failed 10 times, sorry, I don't want to post here with this.

But even your support agent unable to fix it or solve it.

Asked for Teamviewer after I can't get it done, so I thought I have missed something important, but

get refused. So I asked to prove the method still working, that's why I asked for the support agent to register 1 domain for me 2 days ago to prove it is still working, and no response since.

That's my honest review from the real buyer that posted Order ID last time, not blindly voucher.

Thanks

PS: if the owner able to prove it that it is still working, I will remove this review, thanks.
