Pretty cool guide not gonna lie. I had a quick read over it, it seems like it can really work and you can make a decent amount of money, so I'll go ahead and say yes, it's 100% worth the price!

If you wanna play games or already do and want to make money, pull the trigger!

Great questions.

There are 2 games discussed in the guide, however most of the methods refer to one game, which is fairly popular.

It is not purely RWT.

No requirements, though it does help to have a good understanding of the game or being a quick learner.

Some of the methods require investments, while others do not.

I make roughly \$500-\$1,000 a month with these methods. Yes, I do have proof of income.

It's not the game itself that requires a fast pc. All I can say.
