Description:

I opened a exchange contract, sent money to his ETH addy and in the same minute I provided HF message with my paypal address.

He sent money to other paypal address and states that I sent him several paypal addys on skype and that it was my skype which I verified on HF message.

Pics you posted are not proofs.

I have not confirmed my skype and you sent money to other paypal than I sent to you in HF message.

Maybe you didn't try to scam me but you sent money to other guy, I really don't care. It was your fault you sent money to wrong paypal.

You can chargeback money from paypal and I want my refund.

Boolean type - July 11, 2018, 5:54 am

Fucking blatant liar and scumbag. YYou have SENT ME HF PM ONLY WHEN I ASKED YOU ON SKYPE.

Who the fuck does not discuss rates/contact the exchanger and straight away send money ? NO ONE.

I posted proves that you confirmed your skype via PMS(by sending me one, when i requested it). I asked you for edit/approve contract several times BEFORE MONEY HAS BEEN SENT AND YOU DID IT IMMADIATELY PER My REQUEST ON SKYPE. Fucking dumb blatant liar.

This is not proof.

Facts are:

You not confirmed my skype

You sent money to other PP addy that I sent you.

The rate was discussed in contract which can be checked.

My message was - I cover eth fees you PP and you approved contract and with 40\$ ETH for 45\$ PP and added ETH addy.

Thats all.

Boolean type - July 11, 2018, 5:58 am

You are so dumb, everyone can see this that i have confirmed the skype.

You are fucking dumb liar and scumbag, poor kid trying to get 40\$.

I ask you all the time to show that I have confirmed skype. I DIDN'T DO THAT and sending HF message in any time is not confirming skype username.

I don't see any proof confirming that's DealMaker's skype.

He is all the time blackmailing me and insulting in PM's which will be posted -

I want my money back - 41\$ to my ETH addy provided in contract dispute.

Firtly you send me 38,5\$ which was refunded, then 40\$ which was refunded and again 40\$ and it was also refunded. Deal was for 45\$ not 40\$.

I got a Polack joke for you.

What happens when 2 Polacks on HF try to exchange \$40?

Spoiler [\(Click to View\)](#) Just read this thread for the laughs.

You guys are silly. Not even sure either of you are wrong but reading this hurts my brain.

Quote:WE AGREED 40\$ 1:1. I sent 80\$ he still asking for more.

I find that hard to believe you'd keep sending money.

Quote:Yes yes guys, i sent money 5 times and im scammer. Fucking idiots

You sent 5 times? Hmm...that don't sound right either. Sure, you are probably exaggerating but imho those that do are usually the ones lying.

This one is a rare dispute that's valid and not just an obvious scam. I think you're both just stupid.

Sort of what I think but these guys don't seem to be able to get their crap together. Deal gone bad.

So if all the money was refunded then how can he threaten you with a chargeback? Doesn't make any sense. More stupidity.

Quote:Firtly you send me 38,5\$ which was refunded

Looks like the Etherscan transaction ID says it is \$39.63. Pretty close, not \$40 but also not \$38.5.

Just kiss and make up. All this over \$40. :(

He was talking about chargeback right after he sent me money so I just refunded it to avoid problems with paypal and my account got closed.

On the ETH scan at the moment of sending money it was 40\$ on ETH + 1\$ ETH Fee and it was my payment to him.

Money he sent me was PAYPAL not ETH.

The deal was 40\$ ETH (sent by me) for 45\$ PP (sent by him)

After I created the dispute he sent me 38,5\$ PP, 40\$PP and 40\$PP and I refunded all his paypal payments because he was blackmailing me and the deal was for 45\$ not 40\$.
