Thread: [Kik for Traffic? Looking for Kik eWhorers Thoughts](#)

Desensitized - July 11, 2018, 7:05 am

Primarily using snapchat to ewhore sales etc, but I've been considering using kik as I hear it's very active.

Does anyone here use kik to ewhore? I'd love your thoughts.

Kik is a hit or miss for me Lol

I cba to build another Snapchat so I just use Kik, Kik is still profitable theres just more timewasters compared to Snapchat

Experiencing the same thing just time wasters on kik

Time wasters on KIK primarily. But, I haven't tried Snap yet.

I've only used Kik for now and yeah while there are plenty of time wasters, there are plenty of buyers too. You just have to realize who is who quickly and who you should give more attention to. To give you an example, if I get 30 adds - 5 people will buy at most.

Just ignore the kids, men 20+ are probable buyers.

If they have a car or 55 in their username, they can be mature, go for them.)

If they have 14 in their username and have the cat snapchat filter (a 14 yr old pussy) ignore them.

KIK's been alright to me, as stated ALOT of time wasters until you learn to weed them out.

If you know how to word you're post on kik traffic sites right, men will know you're selling, and usually ask you first thing when they message you.

I primarily have been using kik and its great, just find unique sites where ewhores arent a commont thing. Its all about having that og traffic man,

Kik is a great place to E-Whore, if you are looking for a mass of victims with half a braincell left.

Kik has a ton of horny guys, and a ton of thot-bots exploit this, you can too.
