A tad old, but posting.

Design based on an even older piece I made, this was for a contest.

duuuude you made that in Paint? haha

looks amazing, I like the feel of it

well done!

Vuln - July 12, 2018, 4:34 am

Screw Photoshop lmao. Well done indeed.

The contest itself was to make something in MS Paint. I managed to win. :)

Felt a bit freeing to work in Paint. To not care about perfection for once, as it's nearly impossible to do in Pain anyway.

It's pretty cool despite it giving me haunting images of Apple's first logo.
