80 for lifetime.. seems like you aren't intending to support this for very long?

Actually I do intend to support this. Their aren't going to be many slots sold for the ESP build. This is to gather a bit more cash to fund the Full Release of ElysiumAim. We already sold 1 slot on another forum, 3-5 more slots and the Full Release can be expected.

Also remember, this build just includes ESP not Aimbot, Teleport, etc....

Be cracked hard on aimbot btw. Like insanely hard. Glws I guess. Simple cheat and budget for people that can afford. Similar to the one I used to use but had all the features you plan to add so I guess it will be worth the same price once you add all those.

That was our plan :) Affordable cheat for those who like to cheat at a minimum/"legit" cheat.
