Thread: [\[25\\$\] \[100 A DAY\] 100% GUARANTEED AUTO PILOT MONEY MAKING METHOD OR REFUND](#)

BlockZero - July 12, 2018, 10:20 pm

Hi Guys. I have written up a money making method that involves cryptocurrencies. IT IS NOT TRADING ON EXCHANGES. In the pdf, once read you will understand the autopilot method and how it works. Everything is explained with proof of pictures. A newbie can also do this. I have been doing this for a couple months and I am making around 100 now. Nothing is free and this is not a scam or illegal. It requires an investment of however much money you would like to put in.

Everything is explained in the pdf. The longer you are in this the more money you will make. I know I am new in this forum but I have had this idea for two months or so but I was too lazy. I am trying to become a premium seller. And have already got some vouches. Again the PDF will explain again. FULL 100 PERCENT AUTO PILOT MONEY MAKING METHOD after setup. Glad to share this with you. Do not share. Thank you

You should get a thread design! Could you shoot me a message with a few details? I'm curious about this. Good luck with sales(:

I recieved a vouch copy from OP and I can say that this works if you put enough time into it. Nevertheless, I think it needs to be more detailed when explaining all the steps.

Overall it's a good eBook that will bring you profits if you execute the method properly.

Hey so I have reviewed this method, its an okay method. I would consider this more of an investment he is showing you how to do because its more of a set it and forget it. I will say that anybody can do this method and that it truly is auto pilot.

I think from what I read and understand a \$100 investment is needed I will do my best to calculate an ROI once I do some further research on this method.

?XiS - July 14, 2018, 10:25 pm

Any chance you can drop me a PM with more details of what it entails?

BlockZero - July 24, 2018, 7:17 pm

Initial Thoughts After Reading the E-Book

I got the ebook from the seller today, I have not seen the method before. Its new on the block for sure. I will give my detailed review later.

It also included a detailed video for newbies. That is very helpful.

There is potential for money to be made. Genuine method and seller. It has been well researched. Ebook shows a lot of time has been put into it.

If cryptocurrencies aren't banned in your country then it will work.

my country banned gambling and bookmaker sites.

To grow your business and this goes for anything. You would want to reinvest your profits
Once you have a strong passive income, later in life you don't have to work anymore
and that is what I started a couple of months ago. Some advice for people buying my method. Goes for anything but especially my method. :D

789abc - July 27, 2018, 11:05 pm

CommaClub8 - December 13, 2018, 7:18 am

send me a pm plz ;) thanks bro

stupiidkevin - December 13, 2018, 7:25 am

is it really autopilot or r u scamming

BlockZero - January 3, 2019, 12:15 pm

not scamming. I made only like 4 sales. and i sent out multiple vouchers and only one gave a review I also talked to hf mentors and they said it is good too

and I have no reports on my name. reason Im barely on this website is because I barely made sales but everything is on the pdf

AITRADER - January 6, 2019, 9:26 am

Bought the 'guide' , however I must say I am disappointed ...

In my opinion, the guide is nowhere near \$25 value, the info it provides is general. He gave tips here and there, however it is NOT a foolproof method of any kind.

Ok, it may be that I am a bit experienced with crypto and maybe some newbie will find some useful tips, but for me it is truly worthless.

I am sorry to say this. I don't want to ruin your sales or anything. You are just providing some 'ideas' or 'tips' , however I am the one who needs to make a decision and investment on my own. You can definitely lose money doing this, if you make a bad call.

I would like a refund, but I know you would probably not want to offer one.

Proof of buying: Order ID: 786eb57f-1461-49b3-a4b5-00154a8c290c

Maybe my expectations were higher, but I truly believe \$25 is not a fair price for the info you provided.

BlockZero - January 12, 2019, 2:38 pm

Actually I have talked to a HackForums mentor that said he would sell the method for me but has gotten into health issues. He said my method is worth 80 dollars but I cannot sell it for that much because I do not have the audience and the trust to sell it for such a large amount. I do realize that you said it may be because you are bit experienced but even though I do show step by step how to set it up and eight pages worth of description. Yes you need to make a decision but I show you the most valuable way to get the most profit.

BlockZero - January 16, 2019, 3:46 am

because of low sales and no audience I am permanently selling this for 10 dollars. Still the same product.

Unsologeek - January 21, 2019, 8:22 pm

I'm interested, could you send me more information?

BlockZero - January 27, 2019, 8:51 am

This method is still for sale

em33 - February 2, 2019, 7:40 am

Buy/sell not supported in my country on coinbase so i can't use your method then ?

Demonata - February 2, 2019, 11:54 am
