Thread: [Exploit for payment platform \[3/5 copies until price increase\]](#)

Ravioli - July 13, 2018, 4:04 am

The user Salus UID: 3182333 is trying to "sell" my exploit even though he's never purchased. Apparently he's trying to sell it in Vyrez's discord, but I don't know for sure. DO NOT DEAL WITH THIS USER.

I have an exploit for a certain payment platform that I'm not going to disclose on this thread. The exploit bypasses certain restrictions on the platform that can't be obtained without the exploit. This is a profitable exploit as well.

Requirements:

- A phone
- Another person
- Half a brain

I'm selling this exploit for \$120, PM me for more details.

Copies until price increase: 3/5

Maybe post more info. Thats like saying I have an exploit on a site, it might be a government site it might be pbskids, but it does stuff

Sylo - July 13, 2018, 6:07 am

Seems interesting. Mind sending me the platform / gateway it exploits. Is it a payment bypass?

iMirXa™ - July 13, 2018, 3:10 pm

So if we need to pay someone through that platform the exploit will bypass the payment sending procedure and just send the money?

i am interested...

Hey,

Last i checked PayPal fraud was not allowed on HF and it still not is.

there is no such exploit its just an old trick to limit the account via specific targeted url so when paypal system even detects a violation/security warning it has no rights to limit an account but they can surely hold the funds for long time so be warned!

all things considered its not worth it you can have something better also its not allowed here so.

GLWS!

Also that's not even remotely close to what the exploit is.

I want to know these questions. Is nothing related to paypal/payza/skrill?

and "I am confused if it's a payment gateway then I think this will work on all the sites which use the system."

Or you mean that this works for one particular site, just for curiosity can I know what kind of site it is for like gaming, accounts, hardware products, etc. "

Can you PM me answering those? Thank's
