Thread: [Where do you find your tweaks?](#)

Eccy - July 13, 2018, 6:32 am

I'm looking on the Cydia app and I'll I'm getting is shit for like ios6 Imfao, I just want to change some colours and have a nice lock screen

sHAY - July 13, 2018, 6:36 am

I'd go with Lock+ for your lockscreen, and then Anemone for theming your icons.

I usually find my tweaks from youtube videos or the Jailbreak Reddit.

<https://www.youtube.com/watch?v=KVwqzh7SXjw>
https://www.youtube.com/watch?v=OFFrjo_dPrw
<http://www.reddit.com/r/jailbreak>

Just a few sources.

Trying to install barmoji, do I need to download it on PC then upload to my phone or something?
Been a while since I've done this sort of stuff Imao

No, just find it on Cydia & press install

?lex - July 13, 2018, 9:35 am

You can watch youtube videos, most of them will tell you the names of the tweaks!

You can add <https://cydia.kiiimo.org/>

It's a hacked repo that contains tweaks mostly for the older devices if you don't want to pay for the tweaks.

Come on man why recommend piracy for tweaks that cost 99¢ - \$3, is that really going to break your bank? Why not support the developer for committing his time into making something decent for the community to use? Also piracy is against the forum rules.

I don't support piracy either.. I buy my tweaks as well.. I don't care about \$1 or \$2 but some people prefer this.

Cydia to install them

Just browsing jailbreak reddit and see good combos of tweaks and installing them with cydia. (Oh, and if they cost I pay, it's almost nothing anyway)

Also been googling after nice tweaks and just been looking for a tweak to catch my eye.
