Xeovo is a self-funded VPN company based in Finland since 2016. As a team, we thrive on privacy, security, and freedom. We enjoy what we do, understand our customers and deliver a VPN that clients love and need.

### Features

#### Stop 3rd Party Spying

Xeovo protects you from ISP tracking and third-Party spying, and has a strict zero log policy, giving you the online freedom you've always desired.

#### Military-grade encryption

Xeovo encrypts your entire internet with up-to 256-bit high grade encryption to protect your data on your PC or smartphone.

#### Safe Wifi

Without a VPN service, your data stays unprotected when you use public Wi-Fi networks. Browse the web securely on any Wi-Fi connection.

#### Unlimited Bandwidth

Xeovo never limits your VPN service. Browse, or stream you remain worry-free since there are no data limits.

#### Lightning Speed

All the servers in our network support 2Gbit connection speed for an ultra-fast connection.

#### Up to 5 Devices

Enjoy multiple logins simultaneously on 5 devices with a single Xeovo VPN Account.

We can't provide anything. Since we do not store activity logs of any kind. We strongly believe in having a minimal data retention policy because we want you to remain anonymous.
