Fake chips.

noname12345 - October 8, 2018, 1:36 pm

fake chips. has anyone been able to crack this app. im willing to pay 500 for it

Khng7157 - November 25, 2018, 12:04 am

I'll pay 20k for any developers or give me a listing price for your work. I can pay in cash or which ever form of payment. This app is NOT real money. It is only chips. Serious inquiry.

It is fake money. If you are able to develop a software to review hole cards only, I'll pay 20k or what you would think is fair on development time. There is a few glitches on replay cards that show players cards so I'm sure the software itself is not secure. Contact me if interested.

I am looking to hack it two is there anyone out that knows how to do it?

Genius1223 - March 2, 2019, 4:26 am

Unless you hack the server it is not possible. Already tried.

Everything is server sided, so you need to gain access to their servers where the data is hosted and modify it there.

yenny - February 7, 2020, 9:30 am

You still can do it, jack?
Pm me please. I thank 1 of my friend hack this app also. I want to give him back ^^
