Seriously, you need to elaborate.

It could be an .htaccess rule or a rewrite on Apache. I have no idea what you are getting at. If you'd explain better, you may get better help.

well the truth is that my bot stop connecting to my panel..i think its from the hosting company..they upgraded something

and i have sent mail to the support..he also couldn't fix dnt know what went wrong..purchase the hosting from <http://dogeisbest.su/>

he allow bot bt am jst frustrated.if you can recommend any good hosting that i can use for a while before it get banned i will appreciate
