So Leads messaged me yesterday asking if I could try out his method before posting this thread. After purchasing, he guided me and helped me set up the method. It took around 1-2 hours to set up, and by last night:

Great method that I would say no one should hesitate on purchasing!

The package one includes "All files/tools used with this method" or only "All required tools"?

Anyway, I've bought the package one. Going to try this method these days.

Can I get a vouch copy of this? Will write a full review.

Thanks.

TricaPofa - July 19, 2018, 2:24 am

I read the e-book this morning.

I can say it is detailed at each stage. You can easily make more than \$ 300 / day but you need to put some effort into this. And you do not have to invest some money, but you'd better do it.

I will try to use the method when I have more free time.

I give a score of 9/10.

Thank you

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [\[40% OFF TODAY\] MY PRIVATE METHOD >> EARN \\$300+ A DAY << \[100% EARNINGS OR REFUND\]](#) by "Leads"

This eBook consists of 10 pages and 1 method.

Before I get into the content of this eBook I will quickly cover some other things. This eBook as said stands at 10 pages long, which is a little over the average length. On top of this it is truly prop full of text and information, so there are no pages wasted on anything but the method at hand.

There were minimal amounts of grammatical errors, and the structure is overall fine in my opinion as well. I will say the text might become a bit heavy and stacked at times, but overall it is easy enough to read through and understand.

This method is based on CPA but contains much more information than other CPA eBooks I have read in the past. I will not talk about the specific type of CPA this eBook covers, but it focuses on one subject within the CPA genre.

As I previously mentioned this eBook really has a lot of information, and I really want to emphasize that fact once more. There is a LOT of information propped into these 10 pages, and I personally learnt a lot about the subject just reading through it once or twice. I think the eBook is very informative and does a good job of explaining more or less everything you will need to do to get yourself setup and ready to make money. As OP says in the eBook, he covers literally everything about his method and how to set it up as well as use it. I do agree with OP that this eBook is very detailed and does cover more or less everything I want, including sites to use, text, descriptions, keywords etc etc. I don't think OP left out anything when writing this and I think it is a very good eBook for anyone that wants to try out CPA overall.

The setup time for this method should be fairly fast and I would imagine you can start making money within the first few days if you do things properly. Also, with all the extra information put into this eBook I don't think you will have many issues finding some sort of success at the very least.

When it comes to the pricing of this eBook I find it to be overall fair considering the amount of content and time OP put into it. I don't think you will be able to find all this information yourself unless you do a lot of digging and spend many hours on it as well.

Final Thoughts

To OP I would advice you to fix the few grammatical errors here and there, and also to perhaps look at restructuring some of the text, so it might become easier to read. Other than that, I think you did an overall good job on making an informative and useful eBook.

If you are someone that is looking to get into the CPA market or simply wanting to know more about the industry and how to make money within it, then this eBook will do just that in my opinion. I think at the current price you really should be able to cover the cost with your future profits, and I also feel that the knowledge you will get is worth it all on its own as well. It's far from a bad eBook, and one of the better ones in relation to the amount of content, originality and knowledge displayed in it overall.

Earn - August 9, 2018, 5:05 pm

Hey guys, this is not a sales trash, but you should check out this thread before buying.

<https://hackforums.net/showthread.php?tid=5861860>

In the thread you see how OP had a journey thread for CPA to reach a goal of \$100 a day. These journeys always take months, as CPA takes time. Then OP tried saying he had achieved his goal in 4 days, which isn't realistic at all. Also, the exact day that he had reached his goal, he posted this thread selling the method. I will let you guys decide how you feel about this, but I highly recommend

you read the replies on the thread I link where he constantly ignores everyone that is questioning him.

Also, how did Compulsive get paid by OGAds the day after implementing the method? Since this isn't possible, it is obviously a fake vouch. Anyway, it is up to you guys if you purchase it, but it is very sketchy. Stay safe HF.

"these journeys always take months" No. Not always, and you're nowhere near the person to be giving out that kind of information with your obviously limited knowledge on YT CPA. You're pathetic, you have nothing better to do in your sad life than sit here sales trashing and trying to ruin shit for others because you're jealous you can't make any money broke bitch? You obviously have no life.

I have been doing CPA for four years and have much more knowledge in it than you, and i've earned much more on it than you ever will in your pathetic life. Who the fuck said ogads? where did that come from? Are you retarded? You're pulling that out of your ass to back up your own point which shows that your goal here is to sales trash. That goal was achieved in longer than 4 days, i was banned for 2 weeks in between and i started the thread a bit after setting up my lockers. So don't make stupid assumptions and jump to conclusions like a dumb fuck.

I've answered the question multiple times, just because your poor ass is on NET30 payments doesn't mean you should go around acting shocked if people get earlier pays. Besides that, compulsive never once said he was using ogads, and he never even was using the cpa method you idiot. Click the link in the thread and it shows two categories with different methods, one of which i sell as an alternative or sometimes switch between.

It's obvious your goal here is to sales trash because you're salty as fuck. Stay broke bitch.

I love the massive rant you just went on, shows how pissed off you are because your shitty rebook is being exposed for what it is; a ripoff. Also, how would you have any idea how much money I make? Just because I don't post all of my earnings on HF to get 13 years olds sucking my dick. Also, if you were making so much from CPA, why would you need to sell an eBook for \$25? Also, you taking all that time to write that massive rant shows just how much you want to sell your eBook & defend it. Someone who is really making hundreds a day online would have something better to do with their time, to actually earn them money. Also, you are calling me salty but you are the only one throwing out childish insults.

Anyway, I'm done with this. Your rant alone shows HF what type of person you really are.

Anyway, I'm done with this. Your rant alone shows HF what type of person you really are. Nope. cant say it's a ripoff if you've never read it. Plus it's been reviewed multiple times as an excellent ebook by many credible HF members including theocritus who is the leader of the appraisers. Even vouched by ogads themselves. Yeah i want my ebook to sell, it's one of my income streams lmao? I'm selling ebooks and earning cpa because having as many sources of income is better. I also have my own smm panel and business irl. "Someone really making hundreds a day online would have something better to do with their time". Nope, that would make since for people who make money through a career/occupation as im sure they'd be muc more busy but not the same with online earnings. Take a look at Sirzato as proof, he spends his days on hf shitting on people's threads and hes sitting on \$600k lmao. Your points are garbage and you're clearly desperately trying to lower my sales and trash my thread. I feel bad for u, jealousy is definitely a problem with you. Sure i could be spending my time earning more money doing better things, but i'm not. I like going on hf and i like ranting and flaming people who try ruining shit for others. And yeah \$25 is pretty cheap for the quality / method im providing but since i'm only a l33t i decided to start low until i get some buyers and reviews. i'll probably raise my price soon, thanks for the tip :).

Feel free to reply to this with whatever you're feeling, we can have a nice lengthy conversation here. Also i admit there was no reason for me to throw out childish insults so i'll apologize for that.

Gave it a buy as i thought i might aswell give it a try, its a very good read and well worth the buy with the amount of extra tips and tactics included in the eBook, this isnt your typicall CPA eBook, would recommend buying it (:

Was a bit slow at the start but that could be due to the niche i used at first, i can see it is possible to make well over \$300/day as it is very scaleable.

Now following this method, I will post the income. I know it depends on a lot of things, I don't think
I'll make 200\$ tbh.. 50\$ would be already great.

Anyway, I will update my posts in some days (or weeks)

Starting to earn some \$\$\$ (1,61\$ since yesterday and it grows, doesn't worth a screenshot), I didn't
followed every steps like I should, but there's a lot of amazing possibilities with this method.. Thank
you very much.

I just need some extra incomes, I'm working and happy to work. That's why I'm taking my time to do
this, pretty sure in some days I'll make more since it's on autopilot :)

Anyway, will come back later to keep you all updated. Don't worry if you don't see me for weeks, I'll
just be posting results ?

sanctumsounds1 - February 28, 2019, 1:19 pm

I bought this method a bit ago when it first came out. Tried it for a couple weeks, put some extra money into it to try to get more out. Didn't make anything back at all after giving it time compared to the thread saying you can make all your money back in a day, which is bullshit. I asked for a refund about a month ago now, he required for proof I tried the method and I sent him everything he needed as proof for a refund. He started to not respond and then randomly said he would give me the refund, then hasn't said anything at all since then. Obviously ignoring me, and with that being said. Don't buy this method or honestly do any type of business with Leads. The method is nothing special, I will say there is potential there but not anywhere nearly as much as what he puts it out to be.

I spend \$ 50 on this methodthis method, and he didn't answer on skype, and this method is not \$ 300 in mounth, it is CAP market.

It's not \$ 300 a day. You need 2 months to process a method.
Maybe I'm wrong, if he answers and helps me, show me how he can make \$ 300 but with this method i do not know.
I will not give it to you if he made \$ 300 a day with this method and show me how.

if not i will sehare a method.

Hey, it is automated CPA, but you don't just click a button you have to set it up.

However it has nothing to do with shopify.

It uses a network to get your earnings from, paid to paypal, wire transfer and sometimes btc.

AnnaKa - November 12, 2019, 8:26 pm

Method is not innovate and i think that is not private method.. Writed many times on cpa forums.
I tryied without effects, buy some stuff refered by author for boosting traffic and no results..
To much people working on it and this is very very old method.

keeper511 - November 13, 2019, 12:01 am

Here my review, i purchased the method around a month ago, unfortunately Leads never marked the contract as complete, but well, i've got the method and paid for it.

First: i dont want to trash anything, its just a object review and i dont want my money back, because i made a couple of bucks. And i will try not to give away the method, that would be highly unfair, because Leads tried to help, and he has an open ear.

1. The ebook

The Layout is good, but could be better. Some Links in it are not longer working, because the sites are down for good. That should be fixed. And, some of things in the book that are marked "optional" are, well not really optional. It's not a problem, but i think it would be more straightforward to have it marked as "required" in the first place, and not after asking the OP about it.

2. the method

Well, i'm a noob on that account, and never heard it before, but i came along the things in the method before, never realized how it was done. So its good.

The not so good thing is: its saturated. Even with some tricks others may not do, you wont get enough "success" to really benifit from it.

Overall, i think it was fair priced, but you wont get hundreds of bucks out of it, not every day (any maybe never). I've never had problems investing in things, so just to give you a picture:

the method costs me 40 USD

i invested, recommended by the method: 150 USD

i got out of it: 7 usd

So, to wrap things up: Maybe its working, if you implemented it better than me, but by the sold

method alone, i highly doubt you ever will get anything real out of it. Leads is very nice and helpful, and m8: if it works for you, nice! Like for reals, no hard feelings.

Thanks for reading.

Unfortunately you can not get paid in BTC atm.

As for the scaling, it's more from time spent rather than money spent.

I'm super skeptical about buying any methods; however would you mind sending me additional information regarding this?

Thanks

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page

and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
