Could you add a counter that shows you have many valid and invalid and how many combos left?

Fortnite blocks your IP if you have too many login requests so you need to have an abundance of proxies to support your list of accounts.

Proxies are a must for this cracker since Fortnite blocks IPs that are making login requests too fast!

spiral - August 9, 2018, 2:11 am

Are you planning on adding a skin checker as most tools now for a similar price have that included?

I have no plans of adding a checker. This is solely an account cracker and not a multi-tool.

How do you actually log into the accounts? Because you can't actually log into Epic Games with a username.

You can only log into Epic Games with an email. This is their login system, there is no bypass.
