Spoiler [\(Click to View\)](#) Terms of service:

1. No refunds. All codes have been pre checked to be working. This is a digital code that once you redeem, neither myself or anyone else can use.

2. If your Xbox breaks, you lose internet for the weekend, your TV breaks, anything that happens that prevents you from using the code to it's fullest extent, is not my problem. Refer to point 1.

Would love to grab a PC code.

For Battle.net I'm assuming?

Sending you a PM now.

I believe they partnered with Battle.net or whatever this year instead of Steam, yes. The code itself is redeemed on Call of Duty's website with your account there.
