Thanks.

By the way, you dont need a android phone for that. Actually u dont need any phone.

Sended 2 more vouches.

I've had a look at his e-book.

The ebook design needs a completely new look as it was difficult to read, but he is addressing it immediately.

The content however shows its worth as it makes absolute sense and spreading can be less work than it seems.

For 10\$ it's great buy if you are serious about spreading. Can be used for spreading other things too.

omnirat and netwire r not stable at all when we talk about apk server
free rat like unknown rat is still better than em
any way can u tell me the rat that u r using ?

Vouched!

The eBook is good for 10\$.

You can not find the method he has developed and definitely for not this price!

Good luck with sales.
