I bought the video tutorial and here's the review I promised:

I'm still fairly new to CPA and had absolute no idea on how to do the fake proof thing so I had to outsource it with other people that would charge me a lot. However, after buying the video tut and watching it and testing it for a while I realized it's actually quite simple to do! It really helps a lot that there's a step-by-step.

Now I dont have to outsource anymore and I'll save money which I can use for other stuff. BIG vouch for Money4life, thank you!

Trappy - July 20, 2018, 9:56 am

How newbie friendly is it?

(never touched - Photoshop / Photo Editing software

- Adobe after effects / Video editing software)

Does it require multiple phones?

Very newbie friendly as it shows everything step by step.

You can either record with 2 phones, or 1 phone and mirror to your pc or just do a screen rec on your phone.

So its up to you if you want to record your phone with another phone or just screen record
