Fortnite aimbot

DISCLAIMER I DID ONLY MAKE THE SETUP FILE

Yep you read the title right it's a Neural network aimbot again as said in the disclaimer i only made the setup file the cheat was originally made by Demonslayer and the code was modified by tel1014

YouTube Guide ([Click to View](#))youtu[DOT]be/3rnxKp3wbXY

How to setup ([Click to View](#))To setup this Neural network open goo[DOT]gl/4VzNzA this is my github link to the source code of the setup file
Open notepad and copy paste the code

Save the file as setup.py

Open cmd (windows+r) cd into setup.py direcotry

Run setup.py and wait until it finishes

Then run hack.py and voila you got yourself a Neural network aimbot

NOTE: When running hack.py remember that you can stop it at any time by doing ctrl+alt+delete or ctrl+c when focusing the cmd window

All the source code is on my github page: goo[DOT]gl/J9CiRa

Hope ya'll enjoy this treat
