Thread: [\[SENTRY-MBA\] Creating configs FREE OF CHARGE!](#)

Elmo. - July 19, 2018, 11:17 pm

I'm bored right now so i thought i'd take some requests for Sentry-mba configs to create. To have a config done please post below to pm you (don't pm me, i want this bumped), i'll pm you and see what i can do. I can do configs to almost any site. I also can bypass cloudflare but that does not come free. If the site contains a captcha instantly then i'm not able to do the config.

TLDR; POST BELOW TO SEND YOU A PM, MAKE SURE THE SITE DOESN'T HAVE CLOUDFLARE NOR CAPTCHA ON FIRST LOGIN. CLOUDFLARE BYPASS CONFIGS CAN BE MADE FOR PAYMENT.

Hey man

I'd love a Greggs UK sentry mba config, and also if you have a UK colonel KFC config and a UK Subway config, that'd be great

thank you

I need a config for Second Life.

Thanks a lot for doing this!

PerfectStorm - August 16, 2018, 7:34 pm

I am posting here to come back, still doing this?
