Thread: [Fortnite CPA pin submit campaign - Insane potential](#)

jordan0159 - July 20, 2018, 3:07 pm

Hey,

As the title says I'm selling my full campaign for Fortnite pin submits. When it was running it ran in Denmark. Comes complete with 2 fully translated danish Fortnite cpa landers and a total of 3 videos - all with danish voiceovers. On top of this, you'll also receive my custom golang coded webserver for incredible stability at high volumes on low spec servers and also for the cloaking method used to bypass facebook. Along with this comes the facebook safe page that all bots and facebook reviewers will be directed to. Lastly, you'll also receive the exact danish ad copy and facebook ads image that was used to drive £0.04 cpc's without any organic traffic driving it down.

I'll also provide an english version of both sites and the english scripts for the video and an english translation of the ad copy.

The reason I'm selling this is twofold:

First, I've moved on from bh cpa, pin submits and cpa in general. I am currently in more wh ventures.

Secondly, the exact offer I used for the pin submit has been removed from adludum. This means a new offer would have to be chosen and adludum does not have another fortnite denmark offer last time I checked.

However, this may be a blessing in disguise - when translated into another language (can find plenty people here for cheap) such as Germany, the conversion rate will be greatly increased (due to less media and legal heat on pin submits and "fortnite scams" whilst also getting access to 10x the facebook audience size and \$20 pin submit offers themed for fortnite. After this, the landing page can easily be scaled to countless other high converting and high paying geos.

I will also run through setting up heatmapping and visitor recording in order to monitor and optimise the site from your visitors perspective.

Finally, you will get one on one training along with tips on how to scale and further optimise the sites for even higher conversion rates.

Obviously, no screenshots or recordings of the landing pages will be shown. This is only being sold once, to one person. There is heavy potential for \$xxxx/d even off of germany alone with correct scaling of the ad. This campaign is no joke.

Price: \$997.

Please pm with questions. Serious enquiries only. If you think the price is too high then don't even bother commenting as you likely don't even have the budget to scale this anywhere near its potential.

Any questions in the thread will not be publicly answered to protect the various parts of the items being sold.

Messages will be replied to in the morning as it's nearing the end of the day here.
