1. How are these bits obtained?
2. Any proof of this ^
3. Any guarantee I or we will get the pay out from Twitch
4. Will you accept PP from a trusted member?

Why would you want to donate to your favourite streamer with stolen money?

That's just scum

Why would you donate to yourself with stolen money? It's almost 100% you will never get to the part where you can spend the money or cashout considering dispute systems on fraudulent charges have been around forever

ITS BECAUSE YOU ARENT MAKING THESE YOURSELF

These accounts are FRESH accounts with 0 followers, 0 following etc

Bits obtained by accounts watching ads on twitch. I dont have a BITS generator and dont know what you are talking about right now.

Of course, selling and buying bits outside of twitch breaks with their TOS. That's why i offer a refund guarantee

I know this guy, he knows what's up with these accounts and I'm more than sure you would make profits.
