Thread: [Reputation Contest #1 \[Upgraded Only\]](#)

Uploader.sx - July 21, 2018, 6:55 am

So I was thinking about a contest and this popped in my head.

Everyone who wants to join has to post here and after 3 days a winner will be chosen using random.org.

The winner will be repped (+1 or +3 or +5) by all the contest joiners.

Rules:

- You must be upgraded (leet/uber/root/rekt)
- You must +rep me

Join people!

I rather like this idea. Count me in.

How about the winner gets minus repped, b1g prenk eks dee.

Nah seriously, that's what repuation is all about here? Getting reputation by gambling?

I like the idea, but this is the wrong forum to do it.

Since it's no longer the system for marketplace trust and most rules regarding rep have been relaxed, who cares man? It's just a number on your profile essentially.

That's a pretty interesting idea; but I do have a feeling there will be a few salty -reps towards the winner ;) .

I do believe this type of thread belongs in : [Member Contests](#) ?

Instead of a bytes lottery, it's a rep lottery.
