Anyone know any nice mybb themes (Dark)

Cheers <3

There's a cool gaming theme for sale in the MyBB marketplace that is dark:

I just bought this one: <https://community.mybb.com/thread-217951.html>

Check out the MyBB community forum for their Marketplace and you might find a couple that you like :)

This is what I use: <https://community.mybb.com/mods.php?action=view&pid=736>

Honestly it's not hard to just change the colors in a theme to what you want. I changed the orange to red in this theme.
