You should be making money within around a week...

No this isn't a shitty \$500 a week method you can
earn way more.

Selling this because it's way too risky for me and I'm paranoid.

Doubt this is actually allowed to be sold on hackforums if it's that illegal

Blackhat simply means against morals, I never stated it
was illegal therefore this thread shouldn't be taken
down.

who knows?

Ah, I don't have any morals so I'll take a vouch copy if you deem me worthy then

(If it is disallowed then I'll be sure to let you know)

Vouch copies will most likely be given to you and @SeaWorld as he messaged me, however I am not home until next week so if you don't mind leaving me a DM titled vouch copy I'll be sure to send it when I can, many thanks and apologies for not being able to send it right now.
