**Biletsky** - July 22, 2018, 2:04 pm

I'm looking for a bot that follows a certain pages followers and a unfollow feature, I use to use instabaiter but it doesn't work anymore, it just tells me to log in when i'm already logged in. All help is appreciated, thanks.

Have you taken a look at Instazood? It's a bot that seems to do exactly what you're looking for.

Try to Google. It's easier than making a thread.

There is nothing wrong about asking for specific advice. Google doesn't tell you which specific ones are good.

Google doesn't tell you which specific ones are good. When you have found something good you could search the name of the bot and add review.

Followliker reviews - As an example.

Sad when people in the community have such a huge problem with helping other members. Thank you for your input ?
