Thread: [2016 but new member title?](#)

SIM-2887612 - July 23, 2018, 3:02 am

Well, i've been in HF for so long, but i don't know why my title still shows "new member"
Anyone? ?

Because it's dependant on amount of posts/threads

It's because you only have 30 posts.

You kind of are new though. You've only been online 12 hours.

I believe non-custom usertitles are based off of post count. Post more and it should change from "New Member".

Alternatively, upgrade to a different usergroup and you'll be able to set a custom usertitle :)
