Poor scammer tried to scam me, i have Themis blocked on my skype so i knew this was an imposter but idk how i already had this skype added but nvm.

His was a nice technique, he knew i'm an Indian ? so he came up with his trick telling me to swap a \$30 code for his 500 inr Amazon.in GC lol !

Okay scammer if you're reading this then i wanna tell, you're literally the dumbest scammer i've ever seen ROFL.

- I knew Themis was not from UK (+44 code in the skype) and he's on my ignore list and we don't like dealing with each other !

- You'd be idiot to ask me how much is 500 inr worth when you can easily google yourself lol !

Anyways i googled his skype and came to this :

(Almost 2 years and scammer's still active lol)

Don't try to scam Indians, it would just be a time waste !
