nice way to advertise your scammer exploit coder.

if you can afford the first price you have problem affording a refud price is very funny. stop fooling yourself.

whoever want to buy exploit. make sure seller accepts escrow or middleman else you will get ripped off by this idiots

I was about saying the same thing.

We still have some good and dope minded people on this forum.

Did anyone asked OP to share the contact of who he bought his so claimed crap from?

People keep defining means to rip people around here.

He pasted the email so some desperate ones will copy and add the same ripper and gets ripped.

Does this kind of p[people really deserve to be on HF?

He should be banned

Pay Him to REFUD IT,

Just my opinion.
