Thread: [Am i allowed to sell this? \[Can be closed - not allowed here\]](#)

Thread can be closed - Apparently it's not allowed in this community, thanks for the quik responses!

Hi guys, i'm about to sell a legal method which teaches you how to obtain unlimited legal VBA's for free and i was wondering if it's allowed to sell it here on HF aswell.

The VBA's are legit ofcourse and the method is 100% legal and therefore whitehat.
Does not involve any kind of fraud or illegal activity.

Thanks in advance.

What exactly is a VBA? Bit of a dumb question.

We understand that there might be a valid purpose and use for these discussions, but we've decided to remove them from HF in an effort to stay on a more legitimate topic level.

So OP is trying to sell legally obtained bank accounts? Why?

Yeah i've read that but doesn't really answer my question since i'm not selling VBA's or VCC's bro, i'm selling a method which teaches you how to get them for free, legally.

That help document has nothing to do with selling them, the discussion of obtaining them is disallowed, period.

Well, for a bank account, you would need someone's identity, so I assume that means it is illegal?
Just an assumption on my part.

Alright thanks for clearing that up bro, i guess HF is a no go zone lol.

If anyone else claims something else, let me know, since it's not a discussion but a method which teaches you how to obtain them for free, it's different in my opinion but for now i'll follow Biggy's response.

have fun in jail kid

There's nothing illegal about my method and the VBA's themselves are provided through a legit company.

Besides that i'm not selling i'm just testing my waters on which forum communitys i'm allowed to sell this method.

I guess HF isn't one of them.

The company who provides them seem very legit after research and they've been around for ages now, used by other "bigger" companies aswell.

However it ain't allowed here so i won't be selling the method on HF.
