Thread: [Crypter Review \(Plasma Crypter\)](#)

Prifddinas - July 28, 2018, 10:13 am

Detections might be my fault will update back to review if it isnt.

TOM - July 28, 2018, 10:28 am

Contact Woods ! i think he will Help you out !

and Having lots of features does not make a crypter good
Detections you Have seems to be have caused by ICON / Assembly!

Try Building a Custom HQ icon and assembling with some web browser like chrome or a vpn client

Maybe i can help you just msg me your Skype id

uzi420 - July 28, 2018, 11:02 am

Thanks for the review, how many detections did you have and did you try to optimize all the settings? Does this output native code aswell?

derrickheinrich645 - October 20, 2018, 11:56 pm

Hello, can anyone tell a good crypter i can use to crypt my exe file that will not corrupt my file. i have tried darkeye crypter but my output file get corrupted. I need a crypter that is compatible with any exe file.

Could you tell us how many detections it had? It would help members get a little bit more of a better idea on how good or bad this crypter is.
