Thread: [Post pics from camera roll without "From Camera Roll" \(NOT STICKER METHOD\)](#)

briancooper - July 29, 2018, 3:03 pm

What is this? A method to post pictures/videos from your camera roll without in saying "From Camera Roll" or "From Your Memories".

How does this work? It works by manipulating Snapchat. NOT BLACKHAT

Do I have to download any third party application? Nothing at all. All you need is Snapchat.

Do I need to have a iPhone? This method works with both iOS and android devices.

Does this method allow videos? This method allows both videos and photos.

This method will only work for Stories ONLY. You cannot use this method to send to specific people.

What if the method doesn't work for me? You will be eligible for a full refund within 24 hours after your purchase.

Yeah this is def the memories method, which is a hella public.

Pretty surprised to see people trying to sell it. ?

Yea lmao trying to sell something what is free.. Dude are you real? You tryin` to make money this way? Fuck... Pathetic

Silent Exploit - July 29, 2018, 3:25 pm

As the members above said, the memories method is highly public and therefore, worth nothing.
