Any help you need, contact me via pms.

Terms of Service - If you don't make money, PM me for a refund
- A refund is only valid if you follow the method step-by-step

Aye another private method..

I'll take the vouch copy and actually see if it's really private as you're advertising, since price is pretty high.

Always leaving honest reviews.

VulnTutorials - July 30, 2018, 11:30 am

Would love to test your method if your giving any vouch copy out let me know

Meow - July 30, 2018, 11:33 am

Interested in getting a vouch copy, let me know!

Silent Exploit - July 30, 2018, 11:36 am

If you want a review from a new member I can provide a full review of your product if you send me a vouch copy.

Let me know.

Hello! This is an invitation by myself, as the current leader of Appraisers, who's purpose is to provide insightful feedback on services and products offered here in the Hack Forums marketplace through the means of reviewing them and ensuring users of what they are going to be purchasing. Please understand that I am not asking for a vouch copy and that you may respectfully decline such an invitation from myself. Thank you.

If you are interested in my invitation and would like to further this discussion, feel free to send me a message by clicking the following link which will send you directly to my PM: [Theocritus](#).

Interested in the vouch copy, I can definitely write a review in a timely manner.

daymon - July 30, 2018, 12:33 pm

I've sent out all the vouch copies, stay tuned!

RamenField - July 30, 2018, 12:42 pm

If you got that vouch copy available I'd be happy to take it.

Meow - July 30, 2018, 1:03 pm

Received the vouch copy. The method is super simple to do, OP includes a video on how to do everything (in case you're stuck) and some additional materials that required in order to make this work.

As for the method, earnings are pretty much guaranteed (like you don't have to sell anything and wait for customers, etc). In the .pdf file OP shows how to make \$40 but you can obviously make a lot more or less than that (it's up to you really). You can do this method multiple times per day and you can definitely make \$200/week.

Thanks for giving me vouch copy! ?

Thanks for the offer, but I've already given all 3 of the vouch copies out!

Thanks for the review!

I gave out 2 other vouch copies, so if anyone is still hesitant about buying you can wait until those come through as well!

Vouch for OP!

I rarely go on hackforums, I had some extra money left over so decided to find a e-book that looked interesting. This one caught my eye, so I purchased it. I was hesitant at first but I am not disappointed. Overall I would not hesitate to buy. I can see anyone with enough motivation to make money with this method. I will try and update with progress when I have a chance.

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: => [\[\\$200+/WEEK\] PRIVATE MONEY MAKING METHOD | 100% MAKE MONEY GUARANTEED](#) | <= by "Sin+"

This eBook consists of 1 page and 1 tutorial video, as well as some other needed assets in relation to the method.

The grammar in this eBook is fine overall, as again it is just 1 page long, so you can't really mess up much in that case. The structure and everything seem fine as well, as again this is just 1 page so nothing can be too bad.

As said this eBook is 1 page long and contains a very simple method revolving around a certain game and how to make money from said game. The 1 page does clearly state how you are supposed to accomplish these earnings, and you have a tutorial video as well that is supposed to show you the step by step.

The major issue with this tutorial video however is that the framerate is so incredibly bad my VLC could just not play any fluid video at all. The sound was running fine, and I believe the tutorial is pretty decent overall as well. But due to this horrible framerate It seems impossible to actually watch what is happening on screen as it is frozen most of the time. OP needs to completely redo this tutorial with a decent framerate, so people can actually follow along and understand properly what is actually happening and learn from it. As it is now it's frankly a hot mess of a video tutorial in my opinion.

As I said I think the method here has some potential, and it is not something I have seen before either. But as it stands the eBook itself has decent content, but due to the lack of tutorial text wise you are forced to follow and understand what is happening in the video tutorial, which you simply cannot do at this time, in my opinion.

Price wise as well I feel that OP must at the very least fix his video tutorial quality to come close to justifying the current price point.

Final Thoughts

To OP I would suggest you flesh out your written eBook a bit more. Add some tips or advice, try to refine it more overall. And of course I implore you to fix your video tutorial so you can come close to the value of the current asking price.

If you are someone that is in gaming, then you will probably enjoy this method a good bit I would think. It's easy enough to do and if the video tutorial gets fixed I can perhaps agree with the asking price. Though when it comes to eBooks on this site the current pricing is a bit high in relation to the contents within.

As it's a game, will it work on a Mac?

Thanks for the review! If you'd read the ebook though, I did mention the frame rate drop and why it was happening for me. I also mentioned if because of this, anyone failed to understand any part of the method they are more than open to pm me. Also, as much as I appreciate the review, I would ask that you please not disclose any part of the method.

OT: Sorry for the long delay, I got a week ban for sales trashing. I've since responded to all pms!
