This method is pretty scalable and you can even make way more than that if you're smart and know how to take advantage of this.

This is a method that doesn't require a lot of time to setup (around 1 hour) and it will make you a shit ton of money FULLY AUTOPILOT. However, it does require a lot of patience to get your money back.

This method is perfect if you're looking for side income. This can become your main source of income after doing this for 2-3 months.

Price: \$150

Payment method: BTC

If you have any questions or want to purchase, please send me a PM.

There's no autobuy link, all deals will be dealt with manually. There is no refunding, as soon as you get the method you'll realize this is a WORKING and FUNCTIONAL method.

You will get a file briefly explaining how the method works and how you make money out of it, and then you'll have me mentor you through the whole process. You'll also be included in a chat group with other people doing the method.

I've been involved and bought innumerable money making methods and I can assure you this is a perfect method for some side income.

~Frequently Asked Questions~

Q: Can this be saturated?

A: It's possible it can be, I'm not gonna lie. But I don't see it being patched any time soon.

Q: Is \$1500-\$2500 monthly the maximum I can make out of this method?

A: Nope. I would say this is the average income. You can scale this method to make upwards of 10.000\$ per month.

Q: How long have you been doing this method?

A: I've been doing this method for a decent period of time.

Q: Does this require an initial investment?

A: Yes. You'll have to invest money into this method. If you expect to do ~\$1500 monthly, you should expect a ~350\$ monthly investment.

Q: Is this method blackhat/greyhat/whitehat?

A: This method is greyhat.

Q: Does this have anything to do with CPA, Website Creation, Ewhoring, Dropshipping, Reselling, Shopify, SEO or Paxful?

A: No. And I won't be answering any "is this (whatever)?" questions.

Q: Does this work worldwide?

A: Yes, this method can be done globally.

Q: Is there any age limit to this?

A: Yes, there actually is. You have to be 13 years old or older.

Uniqueness – 10/10 - Well for me since I'm from a pretty backward nation I hadn't heard of this method or even the platform used in this method. So it is completely unique for me. For others it may not be so unique. You might be stumbling upon it daily but might not have thought of monetising it.

Support – 9/10 – Hes great & willing to help on his own without me even buzzing. Only problem is we are on different time line so becomes quite difficult to catch up

Saturation 8/10 – I don't think this will ever get saturated because it's the core business of the platform we are exploiting & if they stop this exploit they will run out of revenue

Only thing that can happen is the game can get harder & harder when the company introduces more spam control measure

But I fuck many bigger platforms than this on a daily basis so this should be an easy one!

Method 8/10 - Without giving much away this method revolves around exploiting a system where something is offered for free. You need to rely on a few suppliers to execute the method

It needs a lot of investment though. The returns are like 4x or 400% ROI. So if you want to make 2k a month you need to invest like 300\$

I have already made 48\$ within 1 day of starting the method but I dont consider it as income unless its in my bank account. Because we heavily depend on a company to pay out if every thing goes well.

So its quite a gamble of 300\$ to get a 2k\$ payout after 45 days. But I have seen the OP and other members in group getting paid as well as a lot of others getting paid on a daily basis so Im sure ill

get paid as well!

If my first payout goes through I will scale this to make 10k\$ a month

So to summarise -

- >Unique method
- >Highly scalable
- >Cant be saturated
- >Bit risky & needs lot of patience
- >Decent investment needed but great ROI
- >Best method in HF so far

Just purchased this copy from OP.

Will give an honest review on it.

This method does take some time to see investments from, but it is 100% guaranteed.

The OP stated that this method could be saturated do to patches; this is something I don't foresee getting patched as bypasses will always come along. This can actually jump start a career if you're into this niche as well. \$10,000 monthly is definitely a figure that can happen within the first month so long as you invest your money into this.

Unfortunately, for those seeking payment proof, you'll have to wait as it takes some time to generate the proof of it.

The effort needed to be put into this is up to the user. You can be quite creative with this method as there are numerous ways to go about it.

OP, you've created a really great eBook. This is going to help a lot of people on here who are looking for a supplemental income. So far I've invested about \$100 and my earnings have nearly tripled since. Will keep this updated until my proof of payment is viable.

Im working on getting everything prepared so I can run the method smoothly, he also told me that if you don't want to put the work in, he will provide contacts so that you can pay to get it done.

Method looks legit as fuck so far, something I've never thought of.

To see any INCOME you'll have to wait around 60 days.

And you should be able to see profit in your first cashout.

It's not as easy as it sounds. This is a method that actually needs effort and work to be put into it. You can bypass this initial work, but you still have to pay for it and wait around 7 days to be ready to start making money.

Plus, there's always a 60 days waiting time to see any income.

If you have any questions, I can answer all of them.

It doesn't require knowledge. Just an investment. Blade definitely has everything set to the point where once you invest, you literally put an hour into this method daily and let the rest come naturally. Depending on who you are, you might just be able to complete 8-10 hours of work in a day and that'll carry you fairly far. All just depends. But the work involved is easy. Like 6 year old easy lo.

And no, every 45 days I think. You're able to "jumpstart" with the right investment.

The work isn't annoying to say the least. If you're not interested into fully doing the work, there's even a workaround where you can just leave it run it in the background or even pay to get it done.

And after 60 days you should expect payouts every 15 days.

No, absolutely not.

In fact, I do say the method is greyhat, but it's not like other methods that are more blackhat than whitehat.

The worse you can get from this method is an account suspension, there's nothing illegal related to this method.

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [Money Making Method - Make upwards to \\$1500-\\$2500 monthly autopilot](#) by "bladdy"

This eBook consists of 5 pages and 1 method.

The grammar and structure of this eBook is overall fine, and I did not find too many errors in this regard. It looks overall clean and is easy to read through.

The method in this eBook consists of you taking advantage of a certain online platform in which you make your money by abusing a free offer. OP goes through some general steps in this eBook on how to get your account up and ready to start earning, how you are supposed to get money on autopilot and how you can cash that money out.

It should be mentioned that as OP stated in this eBook it will take at least 45 days for you to receive your first payment. After you have started though the payments should come on a bi weekly basis. The payout options as far as I saw consists of either a wire/bank transfer, paypal payout or check.

Now this method is something I have thought about multiple times myself already, as I thought it would be easy money. I have yet to try this on my own, but this is something I have too investigated a decent bit the last 6 months. The potential for making money here is quite good. If you optimize this and just do the basic method without any modifications you can easily make a few thousand a month for literally no actual work.

the problem I have with this eBook however is that even though OP explains in very general terms how you can make money with this, and how he himself makes money with this, there is really no tutorial included here so that we too can start earning money quickly ourselves. OP does state that he can be contacted for help/mentorship etc, but he should still have an actual tutorial on how to do the method fully in the eBook itself. As of now he just explains the general idea, not how to actually do every single thing step by step.

Technically you can take advantage of this yourself without having to use a middleman to get your income, though OP does not go into that at all. What OP seems to be doing as he states, is that he pays someone to do the service, and he just pays the person a low amount in comparison to what he makes out of it and can then enjoy his profits at the end of every month.

The problem here is that OP does NOT state WHERE you can find people to pay for this, or how to do that step AT ALL. This is something I feel is very lacking and not at all good. He does not even tell us where we can find the person he uses himself for this service. That should have been the bare minimum for him to mention in my opinion.

Now I'm sure that if you contact OP about this he will share the needed information with you, and help you get set up, but that does still not mean that he should not have this information already available and easily accessible in the eBook. What I feel this eBook needs is a proper full step to step tutorial from start to finish on how to execute the method properly. At this time, I would almost say that OP has clearly shown laziness in the eBook structure as it to me seems far from complete. Especially at this price point I see no excuse how it is as barebones in this relation as it is.

OP does reference his Discord server for help and tips regarding this method, but I have been unable to load it. I do not know if this is an issue from OP's side or not, but something to note nonetheless.

Final Thoughts

To OP I would recommend you make a FULL step to step tutorial on how to execute this method fully, including where you can find these suppliers to do the job for you, how you can optimize it, how you can even do it yourself etc etc. This I feel is completely needed to justify the current price point.

If you are looking for a new sort of method, then this is not a horrible option. Yes, this is a method I have thought about before and was going to do myself in future, but it is not something I have seen in another eBook as of yet. The price point for this as said I feel is quite high with the current eBook contents, and I feel that OP should really detail the steps in it much more to make it have the perceived value he is currently selling it at.

Do I think that this method can make you money though? Yes, I no doubt think that this can and will make you a lot of easy money if done correctly. I would advice you have at least \$200-300 extra investment money though, so you can get this ball rolling. If you do not currently have any spare cash whatsoever then this is probably not the method for you.

edit: as expected the discord has all the other information needed to do the method. this does still not excuse not having any of that information in the eBook.

bladyy - August 5, 2018, 4:12 pm

Thank you a lot for your review, Theocritus!

To give some quick answers on Theocritus criticism. The guide that is sent to you, is just an explanation on how the method works and you monetize it, just like he says, it's not a step by step guide on how to do the method. And that's because you're not only getting a method, you're getting my mentorship on how to do this, because there's a lot of different approaches to it: you can just do this as side income in autopilot, you can work on this to maximize profits or you can even boost a career.

And as to where to find people for this, the Discord server has contacts for every single trusted supplier I know on the market. This includes suppliers that help you bypass the 7 days wait, or for any other service required for this method.

And as for the Discord server loading and not showing properly, every single member goes through manual verification.

Huge vouch for this method; Good thing about this is that it's auto-pilot also!

<http://prntscr.com/kkzqy5>

Currently starting slow, as I want to play it safe. But once this stabilize, I will most likely be making 2k a month.

darkfallen86 - August 20, 2018, 8:41 pm

I have bought the method and this looks very promising.

I will post soon when I start seeing results.

I bought method few days back I was very busy to start

Uniqueness – 10/10 - Well for me since I'm from a pretty backward nation I hadn't heard of this method or even the platform used in this method. So it is completely unique for me. For others it

may not be so unique. You might be stumbling upon it daily but might not have thought of monetising it.

Support – 9/10 – Hes great & willing to help on his own without me even buzzing. Only problem is we are on different time line so becomes quite difficult to catch up

Saturation 8/10 – I don't think this will ever get saturated because it's the core business of the platform we are exploiting & if they stop this exploit they will run out of revenue

Only thing that can happen is the game can get harder & harder when the company introduces more spam control measure

But I fuck many bigger platforms than this on a daily basis so this should be an easy one!

Method 8/10 - Without giving much away this method revolves around exploiting a system where something is offered for free. You need to rely on a few suppliers to execute the method

It needs a lot of investment though. The returns are like 4x or 400% ROI. So if you want to make 2k a month you need to invest like 300\$

I have already made 48\$ within 1 day of starting the method but I dont consider it as income unless its in my bank account. Because we heavily depend on a company to pay out if every thing goes well.

So its quite a gamble of 300\$ to get a 2k\$ payout after 45 days. But I have seen the OP and other members in group getting paid as well as a lot of others getting paid on a daily basis so Im sure ill get paid as well!

If my first payout goes through I will scale this to make 10k\$ a month

So to summarise -

- >Unique method
- >Highly scalable
- >Cant be saturated
- >Bit risky & needs lot of patience
- >Decent investment needed but great ROI
- >Best method in HF so far

I've purchased the method from bladyy and I can highly vouch for it.

I'm abusing the method and really stretching the profits you can take out of this, against his advice.
This is a method that can make you a lot of cash if you have the funds to invest. I wouldn't even call it greyhat, all you do is just break a website ToS and the worst that can happen to you is literally an account suspension.

HIGHLY VOUCHED!

darkfallen86 - September 11, 2018, 8:13 pm

Alright, posting again to show my earnings so far since I've been doing the method.

I bought method few days ago and setting about everything right now..

It takes at least 7 days to set everything up, but after that you can scale the method as much as you want.

The idea is new to me and everything makes sense. I'm going to update my post as soon as I made the first few bucks.

Furthermore Blade does help me a lot and answers every question! :)

Investment is definitely needed, but if you're willing to multiply your money this method does help you with that.
