Thread: [Follow Sources - Save yourself some time](#)

Willful - July 30, 2018, 10:20 pm

THERE ARE NO MORE VOUCHES. ALL OF THEM HAVE BEEN CLAIMED. Finding good follow sources is a very time consuming task. Sometimes you might find yourself inadequate sources, which will hinder your growth in your automation tools.

I am here to try to save you guys time.

What I need from you: Your Instagram username or an account within your niche
A specific but brief description about the niche or 4-5 popular hashtags in your niche
Any criteria you would like to mention (min. followers, language, etc.)

What you will get: Username and direct url to the profile
Followers
Following
Engagement Rate
Post Amount

Price
PACKAGE 1:
50 targeted accounts - 1 account/niche: \$40

PACKAGE 2 (INDIVIDUAL):
\$0.90/target source - minimum 10 sources: \$9+

PACKAGE 3 (BULK):
You want something even more than 50? PM and we can discuss this.

Payment options
Paypal, BTC, LTC, ETH

Delivery time
After the payment has been received, I will need approximately 48 - 72 hours to deliver your order.

Important Points to read before you order When you PM me to setup the order, I will make sure I evaluate both the provided profile (ideally should be your profile) and the niche before I will accept your order. I would like to be 100% certain that I can deliver your order with quality service and not waste either of our times.

Profile should be public.

Follow-Back ratio is not entirely dependent on the targeted accounts I provide as a follow source. It is also dependent on the type and quality of post you share on your IG account.

The number of accounts for the bulk package is completely dependent on your niche/sub-niche. Do not expect any extra accounts in your order if you are in a very specialized/targeted niche.

Bump. Uber vouch still available if someone else is interested in it to give a review.

--

Uber vouch has been claimed.
