Thread: [Looking for A Previous DropShip Store Builder](#)

The Director - July 31, 2018, 1:16 pm

I saw somebody about a week ago building a site for \$50 and had good reviews or two for \$80 and somebody new did \$125 in a day on the next post of it... Can't seem to find or remember the OP of it, if somebody can link me, let me know please, thank you.

I'm actually a client with the guy right now, but things are moving a bit slow. I have faith in the guy though.

I have a service on HF where I can make you your own Shopify store.

It's obviously a bit pricey, but it includes everything you need for starting.
