The hell does that have to do with greed?

Sounds like you're a perfectionist, that's not a bad trait imo

Unless it's the corny answer that you're using during a job interview when they ask what your worst quality is.

"I'm a perfectionist" is the canned answer when you're trying to lowkey humblebrag and interviewers hate it haha.

I'm asking myself the very same question.

OP, ever heard of the term "Perfectionist"?

Being greedy is stressful because you want what you're aiming for. And having what you want doesn't always come true so you're left striving for it.

It doesn't pay off to be greedy, even if you are - try not to be.

Being a perfectionist isn't necessarily a bad quirk. Striving to be the best at everything you do is a good thing for the most part.
