Thread: [View Warnings for Ub3r/r00t](#)

Xerotic - August 1, 2018, 2:29 pm

Back in 2010 Omniscient added a page that allowed Ub3r members to view the warning level details of other members: <https://hackforums.net/showthread.php?tid=359569>

During the 1.8 upgrade last year this plugin broke and now it is back! If you are a Ub3r or r00t member you will be able to see the warning level of other members on postbit and profiles. Keep in mind that you will only see the warning level IF they have any active warnings. When you click on the percentage you will be brought to a page that provides additional details. This page will ONLY show active warnings. Expired warnings will not be displayed.

In the past the custom page was ub3rviewwarnings.php and has since been renamed to viewwarnings.php to accommodate r00t members being included in the feature.

So to recap...Postbit will now display warning levels, if a warning level exists

Profiles will display the warning level (even if it is 0%)

Active warnings only

Ub3r/r00t only

Enjoy.

PerfectStorm - August 1, 2018, 2:34 pm

Very good, Thank you interesting feature.

(Aug 1, 2018 02:36 PM)Nachfolger Wrote: [\[CITE\]](#) I'm confused. Did I read this thread too quickly, or is it not working?

Postbit will now display warning levels, if a warning level exists

Profiles will display the warning level (even if it is 0%)

I don't see any warning levels.

It is working. On profiles you will see a spot for "Warning Level" even if the user does not have any active warnings.

On postbit (posts) you will see Warning Level ONLY IF the member has an active member.

On postbit (posts) you will see Warning Level ONLY IF the member has an active member. Yeah, I re-read the thread and realized what you were saying. Post has since been deleted.

Thanks for adding warning levels back to the postbit/profile.

(Aug 1, 2018 07:11 PM)xadamxk Wrote: [\[CITE\]](#) Um... why does t show you having 2 warning levels? Because I'm above the system and don't comply with those normie level warnings.

I see warnings in the postbit just fine, as far as I know.

NoSuchAgency - August 1, 2018, 8:05 pm

Awesome to have this back, thank you!

TB12 - August 1, 2018, 8:10 pm

Awesome thanks a lot! Glad to be able to stalk the naughty members ;)

Lukas - August 1, 2018, 8:27 pm

Beautiful update!

Thank you Xerotic!

Great addition, something related though... Will view bans be re-added? Forgot the reason why they were removed.

Saltpeter - August 2, 2018, 12:20 am

Glad to see this make a return. Good work X.

Evanescent - August 2, 2018, 12:28 am

Good that it's back. Can see warnings now.
