What about you guys? :D

ItsJigSaw - August 1, 2018, 10:21 pm

3-10euros real og barbers are cheap while these self-proclaimed "pro" barbers are 10e

5oak - August 1, 2018, 10:29 pm

Cheapest one you can find here is like 4\$ USD, higher end ones like 8-10\$

Blakes - August 1, 2018, 10:30 pm

I pay \$15 for my haircut You can find places for \$7 but wait is usually hours and they could fuck something up more often then when with someone who cost more.

test - August 1, 2018, 10:34 pm

\$15-\$20 just for a short sides and back with a little off the top. More if you want something more specific done to it.

Silent Exploit - August 1, 2018, 10:36 pm

A few dollars, like \$3 or so.

reacts - August 1, 2018, 10:37 pm

\$5 for a haircut and I give a tip to my barber

Vamure - August 1, 2018, 10:38 pm

I deadass pay up to 60\$ to get my hair cut. I'm picky as fuck with my hair; plus I have long hair. lmao.

Who Soup - August 1, 2018, 10:43 pm

Still seems a little expensive even with long hair but it probably comes out to the same price since you don't get haircuts as often

Very valid point; plus I don't go to like normal barbers. ?

SIM-1349466 - August 1, 2018, 10:54 pm

\$12 and then I tip \$3-5 depending how much I have on me.

SORRIE - August 1, 2018, 11:02 pm

My haircut is \$15 but my barber is amazing and I've been going to her for years, so I always just give her \$40

Hvpno - August 1, 2018, 11:05 pm

\$20-\$30 with the tip included

Brendan - August 1, 2018, 11:20 pm

\$20 if I give them a tip. The lady fucked it up last time and it looked like I had a mushroom haircut. It's clipped all the way around so idk how she messed up that one.

Carl Elias - August 1, 2018, 11:30 pm

I pay 15 plus usually a 5 dollar tip for mine. Sometimes I'll tip 10 if the person was fun to talk to.

Its crazy how much it is sometimes, but they would do a MUCH better job than if I did it myself.

Pulz - August 3, 2018, 12:28 pm

From what I've seen (living in Great Britain):

Scheduled appointments cost slightly more, the below is for just dropping in whenever. I'm not sure

how many people schedule a haircut.

£8-10 in the city.

£6-8 back in my hometown, depending on which barber I use.

I used to purchase hair product from them, which I found interesting:

£6 for styling wax in the city.

£8 for styling wax in my hometown.

There are a few barbers in both places that will charge less depending on how much of a haircut you need.

Do you tip your fedora towards him afterwards too? Love doing that, it's better than using words.

Also I'm about to spend 100 Euro's cause... well I like expensive things. Three digits is inherently more than two, and more is usually better.

Beaks - August 6, 2018, 12:28 am

My last haircut cost \$45 USD.

tjones42 - August 6, 2018, 6:54 am

Lol around \$25-\$30 is what i usually pay...yeah it is quite expensive for the low I can probably get it for \$15 at the lowest...with some deals I've had a cut for \$6 but the ones who charge \$20-\$30 are usually good barber shops...like when I tell you they take an hour on your hair this man use to take 60+ minutes on my hair (wasn't even long). Use to edge it out like crazy make it look real good.

I liked it for the most part. Went to the popular places like Taj Mahal, some theatres/concerts (I love indian music).

Haha yeah they of course immediately knew I was not from India so I got quite a lot of attention especially in restaurants/shops or anywhere where I could spend money :P

I must say I saw a lot of poverty and huge difference between rich and poor.

India was nice, I'll definitely visit it again one day.
