Thread: [html menu for checkout help](#)

Mesa Verde - August 5, 2018, 5:44 am

Hey im new to this whole making a website thing, How can i achieve a checkout like this

<https://gyazo.com/048f5fd2788ccf8f83e21e0b43d9b064>

or the same style, it's the only thing stopping me from selling, I looked online and couldn't find anything on it

Throw three DIVs inside a flexbox and text inside those divs. Are you expecting someone to remake this for you? The structure is simple, you'll need to add a little bit of CSS to recreate the exact design, though.

Basic structure reference:

Code `<div class='option-group'>`

```
<div>
  <div>line 1</div>
  <div>line 2</div>
  <div>line 3</div>
</div>
<div>
  <div>line 1</div>
  <div>line 2</div>
  <div>line 3</div>
</div>
<div>
  <div>line 1</div>
  <div>line 2</div>
  <div>line 3</div>
</div>
```

`</div>`

Basic CSS:

```
Code .option-group {
  display: flex;
  justify-content:
  align-items: center;
}
```

```
.option-group div {
  margin: 0 7px;
  box-shadow: 0 3px 6px rgba(0, 0, 0, 0.16), 0 3px 6px rgba(0, 0, 0, 0.23);
  height: 400px;
}
```

```
.option-group div:first-of-type {
  border: 2px solid green;
```

}
